

Medicaid and CHIP National Summary of Renewal Outcomes – February 2024 and National Summary to Date

May 2024

National Summary of Renewal Outcomes

- This National Summary of Renewal Outcomes provides an overview of Medicaid and Children’s Health Insurance Program (CHIP) renewal data since March 2023, when states began resuming their regular processes for renewing individuals’ coverage after the end of the Families First Coronavirus Response Act (FFCRA) Medicaid continuous enrollment condition.
- States must submit specific metrics about Medicaid and CHIP renewals initiated and completed for a cohort in a given month using the “Unwinding Eligibility and Enrollment Data Reporting Template” (Unwinding Data Report).
- The data in this summary include metrics required by the Consolidated Appropriations Act, 2023 (CAA, 2023), as well as other state-reported data and calculations that provide additional context to understand renewal outcomes.
- For more information on this data set as well as methodologies and limitations, see the Data Sources and Metrics Definitions Overview under the [“Understanding the Data” tab](#).
- State-specific notes for the data can be found in the [Medicaid and CHIP CAA Reporting Metrics](#).
- Additional data are available at [Medicaid.gov/unwinding-data](https://www.Medicaid.gov/unwinding-data).

Context and Data Notes: Understanding Renewal Timelines & Reporting

- **Medicaid and CHIP renewal outcomes are reported by cohort.** States report outcomes for all individuals in the month in which renewals for the cohort are due, even if some renewals were completed in a prior month.
- **States began unwinding in February, March, or April 2023** by initiating their first cohort of renewals. Due to a number of factors, including state adoption of mitigation strategies, delays in procedural disenrollments, or state adoption of other CMS-approved strategies, states will complete unwinding-related renewals at different times.
- Starting with the February 2024 reporting period, national renewal data will no longer reflect only work done as part of unwinding processes and will begin to reflect routine renewal processing as well.
- In the February 2024 reporting period, state-reported data may reflect (1) routine renewal initiation data, (2) unwinding renewal initiation or outcome data, or (3) a combination of unwinding renewal initiation and outcome data, as well as routine renewal initiation data.

Context and Data Notes: Understanding Renewal Timelines & Reporting

- **The length of states' renewal process varies.** Most states take between 45 and 90 days to complete renewals for a cohort. As a result, states are completing renewals on different schedules and will report outcomes in different months.
- During their unwinding periods, states have had flexibility in how to distribute Medicaid and CHIP renewals, and nearly half of states (22) elected to conduct renewals for individuals identified by the state as likely ineligible for Medicaid and/or CHIP in the early months of unwinding.
- For more information on state renewal timelines and prioritization of renewals, please [see 2023 State Timelines for Initiating Unwinding-Related Renewals](#).

Context and Data Notes: Interpreting Renewal Outcomes

- Multiple factors, including state-adopted mitigations and other strategies, may influence renewal outcomes and reporting in a state. For example:
 - States with an *ex parte* mitigation strategy that uses data sources to complete a renewal after a form is sent may report those renewals as completed based on the return of a renewal form and underreport the number of individuals renewed on an *ex parte* basis.
 - Some states are temporarily holding some or all procedural terminations as a mitigation strategy to ensure compliance with federal renewal requirements or have voluntarily implemented a strategy to delay procedural terminations to conduct additional outreach. These states may report zero procedural terminations and/or a significantly higher share of pending renewals at the end of a reporting month.
 - Some states have restored eligibility for people initially found ineligible due to systems or other errors. This is frequently not identifiable in the data.
 - State-specific data will vary based on states' unwinding timelines and whether a state has completed unwinding-related renewals.
- Please consider these factors, states' distribution and prioritization of renewals, and other information when interpreting renewal outcomes and comparing information across states. Data limitations in the [Medicaid and CHIP CAA Reporting Metrics](#) provide additional state-specific information.
- For additional information, see:
 - [COVID-19 PHE Unwinding Section 1902\(e\)\(14\)\(A\) Waiver Approvals](#), and

Context and Data Notes: Holding Procedural Terminations

- Among states that had a cohort of unwinding-related renewals due in the following month(s), these states paused some or all procedural terminations:
 - **March 2023 cohort:** ID
 - **April 2023 cohort:** ID, OK, and WY
 - **May 2023 cohort:** DE, KS, KY, ME, WV, and WY
 - **June 2023 cohort:** AK, DC, DE, IL, IA, KS, KY, ME, MI, MN, MO, NJ, NY, OK, SC, WV, and WY
 - **July 2023 cohort:** AK, DC, DE, IL, IA, KS, KY, ME, MI, MN, MO, NJ, NY, OK, SC, WV, and WY
 - **August 2023 cohort:** DC, DE, IL, KS, KY, MD, ME, MI, NJ, NY, SC, and VA
 - **September 2023 cohort:** AK, CO, DC, DE, HI, ID, IL, KS, KY, MD, ME, MI, NH, NJ, NM, NV, NY, OR, SC, VA, VT, and WV
 - **October 2023 cohort:** AK, CO, DC, DE, IL, KS, KY, MD, ME, MI, MN, NH, NJ, NM, NV, NY, OR, VT, and WV
 - **November 2023 cohort:** AK, CO, DC, DE, IL, KS, KY, ME, MI, MN, NH, NJ, NM, NV, NY, OR, and VT
 - **December 2023 cohort:** AK, CO, DC, DE, IL, KS, KY, ME, MI, MN, NH, NJ, NM, NV, NY, OR, and VT
 - **January 2024 cohort:** AK, CO, DC, DE, IL, KS, KY, ME, MI, NH, NM, NY, OR, and VT
 - **February 2024 cohort:** AK, CO, DC, DE, IL, KS, KY, ME, MI, NH, NM, NY, and OR
- States report renewal outcomes by cohort in the month the renewal is due. In most states, the effective date for procedural terminations is the beginning of the following month in which the renewal was due (e.g., procedural terminations for renewals due and reported in the month of March would have an effective termination date of April 1).

*See [companion spreadsheet](#) for March 2023-February 2024 state-level data

**Beginning with the February 2024 reporting period, some states are initiating routine renewals unrelated to unwinding. The data do not distinguish between unwinding renewals and other renewals.

Notes:

- These data represent the outcomes of renewals due from March 2023-February 2024 in all 50 states plus DC. Total renewals initiated to-date represents data from February 2023-February 2024. Except for renewals initiated, data for MA from May-July 2023 are excluded due to reporting issues. Numbers and percentages may not sum due to rounding.
- Pending renewals to date reflect the sum of total pending renewals at the end of each reporting month and not the cumulative total of pending renewals as of the end of February. States may complete renewals pending in the month after the reporting month. Some states may have reinstated coverage for individuals who were terminated from Medicaid or CHIP in subsequent months. Those reinstatements are not reflected in the data.

Enrollment in Medicaid/CHIP, Marketplace, and BHP Coverage

Changes in Enrollment in Medicaid/CHIP, the Marketplaces, and Basic Health Program (Millions)

- In the February 2024 reporting period, Medicaid and CHIP enrollment is approximately 83.4 million, Marketplace enrollment is approximately 20.1 million, and Basic Health Program (BHP) enrollment is approximately 1.3 million.
- Since March 2023, total enrollment across Medicaid, CHIP, and the Marketplaces has declined by 5.2%, nearly 5.7 million. This is a 10.5 million decrease for Medicaid and CHIP and a 4.7 million increase for the Marketplaces.

Notes:

- BHP data are reported to CMS by two states, MN and NY, that operate a BHP. January 2020 BHP enrollment data are included in the February 2020 Pre-Pandemic enrollment total. Total BHP enrollment was 880,198 in January 2020, 1,260,094 in March 2023, and 1,309,358 in February 2024.

February 2024	83,387,167*	12,512,098	(10,480,839)	16,088,285

- Total Medicaid and CHIP enrollment declined by approximately 10.5 million people between March 2023 and February 2024.
- There were **14.8 million people disenrolled** from Medicaid and CHIP during the same relevant period, from March 2023 to January 2024,* indicating that some individuals may be re-enrolling or newly enrolling in Medicaid or CHIP coverage.

Notes:

- *Medicaid and CHIP disenrollments are effectuated in the subsequent month that they are reported (e.g., January disenrollments are effectuated in February)
- Enrollment and disenrollment data on this slide are a combination of Medicaid and CHIP enrollment and do not include Basic Health Program (BHP) enrollment

Marketplace Enrollment, March 2023-February 2024

Month	Total Enrollment
March 2023	15,373,114
April 2023	15,527,882
May 2023	15,623,232
June 2023	15,864,437
July 2023	16,108,276
August 2023	16,404,037

Month	Total Enrollment
September 2023	16,805,793
October 2023	17,128,244
November 2023	17,487,838
December 2023	17,351,397
January 2024	19,506,806
February 2024	20,058,805

- Total **Marketplace enrollment increased by about 4.7 million people** from March 2023 to February 2024.
- This includes enrollment for **HealthCare.gov and State-Based Marketplaces.**
- While we know that this total increase in Marketplace enrollment is not solely due to individuals leaving Medicaid and CHIP, monthly unwinding public reporting (available on data.Medicaid.gov) on coverage transitions to the Marketplace is **lagged and likely an undercount of transitions** due to the nature of matching administrative data sets across programs.
