

State-by-State Health Home State Plan Amendment Matrix

This matrix outlines key program design features from health home state plan amendments (SPAs) approved by the Centers for Medicare & Medicaid Services (CMS). As of October 2025, 19 states and the District of Columbia have a total of 33 approved Medicaid health home models. For more information about health homes, visit the [Health Home Information Resource Center](#).

State	Model Type	Target Population	Health Home Providers	Enrollment	Payment	Geographic Area
Connecticut	SMI	Individuals with SMI, including schizophrenia and psychotic disorders, mood disorders, anxiety disorders, obsessive compulsive disorder, post-traumatic stress disorder (PTSD), and/or borderline personality disorder.	Designated providers are Local Mental Health Authorities (LMHA) and designated LMHA affiliates.	Opt-in enrollment	Fee-for-service (FFS) per-member-per-month (PMPM)	Statewide
District of Columbia	SMI	Individuals with one or more serious and persistent mental health conditions, defined as: a diagnosable mental, behavioral, or emotional disorder which substantially impairs the mental health of the person, substance abuse disorders, intellectual disabilities and other developmental disorders or seizure disorders, unless those exceptions co-occur with another diagnosable mental illness.	Designated provider: Community mental health centers (CMHCs)—also known as core services agencies (CSAs)—meeting state qualifications	Opt-in enrollment	Tiered PMPM; two rates based on acuity (high and low)	Statewide
District of Columbia	Chronic conditions	Individuals with three or more chronic conditions, including mental health conditions, substance use disorder, asthma, diabetes, heart disease, morbid obesity (BMI over 35), chronic obstructive pulmonary disease, cerebrovascular disease, chronic renal failure, hepatitis, HIV, hyperlipidemia, hypertension, malignancies, paralysis, peripheral atherosclerosis, and sickle cell anemia.	Designated provider: Clinical practices, clinical group practices, federally qualified health centers (FQHCs)	Opt-out enrollment	PMPM	Statewide

State	Model Type	Target Population	Health Home Providers	Enrollment	Payment	Geographic Area
Idaho	I/DD	Individuals who have an intellectual disability and a mental health diagnosis of SMI or autism, whose acuity exceeds the existing level of traditional community services and struggles to have their health and safety needs met through traditional community services and need a more specialized plan of care.	Health Home Team: Intellectual Disability/Mental Illness (ID/MI) Health Home	Referral and assignment to Health Homes provider with opt-out	FFS; Comprehensive methodology included in plan	Statewide
Iowa	SMI/SED	Adults with an SMI diagnosis and children with a SED diagnosis.	Teams of health care professionals are enrolled to integrate medical, social, and behavioral health care needs for individuals with an SMI or SED.	Referral and assignment to Health Homes provider with opt-out	PMPM	Statewide
Kansas	Asthma	Individuals with asthma who are at risk for developing another chronic condition. Other conditions include diabetes, hypertension, cardiovascular disease, chronic obstructive pulmonary disease (COPD), metabolic syndrome, mental illness, substance use disorder (SUD), morbid obesity, tobacco use, use or exposure to secondhand smoke.	Team of health care professionals composed of a partnership between the Lead Entity and another entity, a health home (OneCare Kansas) partner that is appropriate for each member. Team to include physicians, nurse practitioners, nurse care coordinators, nutritionists, social workers, peer support specialists/mentors/advocates, mid-level practitioners (Physician Assistants).	Opt-in enrollment	PMPM	Statewide

This fact sheet was updated for the Centers for Medicare & Medicaid Services by Abt Global and Health Management Associates (HMA).
