**MEDICAID DRUG REBATE PROGRAM
QUARTERLY UROA FILE**

Data Definitions

Effective: July 1, 2021

Record ID: Constant value of "99@@".

Labeler Code: First segment of the National Drug Code (NDC1) that identifies the labeler.

Product Code: Second segment of the NDC.

Package Size: Third segment of the NDC.

Period Covered: The calendar months and year covered by the data submission

Valid Values for MMM:

JFM = January, February, March

AMJ = April, May, June

JAS = July, August, September

OND = October, November, December

Valid Values for YYYY: Four-digit calendar year.

Unit Rebate Offset Amount: The CMS-calculated amount (per reported unit type).

Record Type Indicator: Provides information regarding each individual line of data included on

a quarterly UROA file.

Valid Values:

- 0 Indicator: Initial, calculated zero, or non-zero UROA for an NDC and a particular quarter/year combination (i.e., period covered).
- 1 Indicator: Zero UROA (due to missing quarterly pricing, 400/400 edit, systems changes, etc.). These zero UROAs will correspond to zero URAs for the same NDC quarter/year combination (i.e., period covered).
- 5 Indicator: This quarter/year combination (i.e., period covered) and the associated, previously transmitted UROA (including a zero UROA) are no longer valid due to a product change by the labeler (e.g., Termination Date change, Market Date change, etc.).
- 6 Indicator: UROA that was previously calculated and transmitted for this quarter/year combination (i.e., period covered) and subsequently made invalid, is now valid again due to another product data change by the labeler (e.g., Termination Date change, Market Date change, etc.).
- 8 Indicator: Value of previously calculated UROA, which always appears along with a corresponding “9” indicator.
- 9 Indicator: Value of replacement UROA, which always appears along with a corresponding “8” indicator.
