Jacey Cooper Chief Deputy Director, Health Care Programs California Department of Health Care Services P.O. Box 997413, MS 0000 Sacramento, CA 95899-7413

Dear Ms. Cooper:

Enclosed is an approved copy of California State Plan Amendment (SPA) 16-0027, which was submitted to the Centers for Medicare & Medicaid Services (CMS) on September 27, 2016 to restore acupuncture as a covered service under the Alternative Benefit Plan (ABP). CMS approved this SPA on March 3, 2021 and the effective date of this SPA is July 1, 2016 as requested.

Attached are copies of the approved Alternative Benefit Plan pages that should be incorporated into California's approved State Plan.

If you have any questions, please contact Cheryl Young, Division of Program Operations (West Branch) at 415-744-3598 or via email at Cheryl.Young@cms.hhs.gov.

Sincerely,

James G. Scott, Director Division of Program Operations

The state/territory has fully aligned its benefits in the Alternative R	Benefit Plan using Essential Health	Benefits and subject to 1937

The state/territory has fully aligned its benefits in the Alternative Benefit Plan using Essential Health Benefits and subject to 1937 requirements with its Alternative Benefit Plan that is the state's approved Medicaid state plan that is not subject to 1937 requirements. Therefore the state/territory is deemed to have met the requirements for voluntary choice of benefit package for individuals exempt from mandatory participation in a section 1937 Alternative Benefit Plan.

Yes

Explain how the state has fully aligned its benefits in the Alternative Benefit Plan using Essential Health Benefits and subject to 1937 requirements with its Alternative Benefit Plan that is the state's approved Medicaid state plan that is not subject to 1937 requirements.

In accordance with CMS instruction and technical assistance, California has fully aligned its benefits in the ABP to reflect the State Plan, using the Blue Cross/Blue Shield FEHBP to define the EHBs. To the extent services are considered Long Term Services and Supports (LTSS), these services are only available under the ABP to individuals who meet the medically frail criteria. The criterion governing the availability of these State Plan services aligns with or is at least as stringent as the medically frail criteria. As such, those ABP recipients who qualify for State Plan LTSS services based on medical necessity will be considered medically frail and will not be subject to a separate determination beyond the applicable, service-specific needs assessment.

1915(k) State Plan. Effective on July 1, 2013, an individual is eligible for CFCO services when, (1) he or she is in an eligibility group under the State Plan that includes nursing facility services or has an income that is at or below 150 percent of the Federal Poverty Level, and in addition, (2) it is determined that in the absence of home and community-based attendant services and supports, he or she would otherwise require a Medicaid-covered level of care furnished in a hospital, a nursing facility, an intermediate care facility for the mentally retarded, an institution providing psychiatric services (for individuals under age 21), or an institution for mental diseases (for individuals age 65 and over). The individual is unable to perform some activity of daily living independently and without access to this service would be at risk of placement in out-of-home care. Services include assistance with Activities of Daily Living; and acquisition, maintenance and enhancement of skills necessary for the individual to accomplish activities of daily living and health related tasks. The California Department of Social Services will complete authorization by annual review or as needed when the individual's support needs or circumstances change, or at the request of the individual or the individual's representative. EPSDT beneficiaries may receive additional services for medical necessity.

	The State submitted a section 1115 Demonstration proposal as a bridge toward full health care reform implementation in 2014. This proposal allows CA to phase in coverage in individual counties for adults aged 19-64 with incomes at or below 133 percent of the federal poverty level (FPL), who are eligible under the new Affordable Care Act State option and adults between 133 percent - 200 percent of the FPL who are not otherwise eligible for Medicaid; expand the existing Safety Net Care Pool (SNCP) that was established to ensure continued government support for the provision of health care to the uninsured by hospitals, clinics, and other providers; implement a series of infrastructure improvements through a new funding sub-pool, that would be used to strengthen care coordination, enhance primary care and improve the quality of patient care; create coordinated systems of care for Seniors and Persons with Disabilities (SPDs) in counties with new or existing Medi-Cal managed care organizations through the mandatory enrollment of the population into Medicaid managed care plans.

	Describe program below: 1915 (b) Medi-Cal Specialty Mental Health Services (SMHS) Consolidation. Section 1915 (b) waivers relevant to Specialty Mental Health Services (SMHS) have been in effect in California since 1995. An eighth renewal of the SMHS waiver has been granted for a two year period effective July 1, 2013-June 30, 2015. For the purposes of the SMHS waiver program, persons with special health care needs are adults who have a serious mental disorder and children with a serious emotional disturbance. These beneficiaries are identified through the assessment process by the county Mental Health Plan (MHP) as meeting the

SMHS medical necessity criteria. The design of managed care for California's Medi-Cal mental health program was phased in over several years. The State's enabling legislation for this waiver is set forth at Welfare and Institutions (W&I) Code, Sections

meet the medical necessity criteria. During the eighth waiver renewal SMHS will be provided to the newly eligible adult beneficiaries by the county MHPs. CMS approved a waiver amendment request to include this population on December 26, 2013.

The PIHPs are not at risk for FFP for the cost of services. The SMHS Consolidation waiver program is administered locally by each county's MHP and each county's MHP provides, or arranges for, specialty mental health services for Medi-Cal beneficiaries. MHPs are not paid on a capitated basis; instead, MHPs are paid on a fee-for-service basis.

Beneficiaries are automatically enrolled in the single MHP in their county. The State continues to contractually require MHPs to ensure the availability and accessibility of adequate numbers of institutional facilities, service locations, service sites, and professional, allied and supportive personnel to provide medically necessary services, and ensure the authorization of services for urgent conditions on a one-hour basis.

Beneficiaries are provided with a choice of providers within the MHP and an opportunity to change providers whenever feasible. Although the regulation allows MHPs to limit the beneficiary's choice to two (2) providers, the beneficiary may request an additional change if not satisfied; the opportunity for choice may be limited by feasibility. In most cases, feasibility is linked to the number of providers in the MHP's network.

Access continues to be assured and monitored through state regulations, and the MHP contract, the State's review and approval of any amendments to the MHPs implementation plans for the program on-going contract management by the State; and formal triennial reviews of the MHPs conducted by State staff, and annual External Quality Reviews conducted by the contracted External Quality Review Organization.

Fee-For-Service Options

Indicate whether the state/territory offers traditional fee-for-service and/or services managed under an administrative services organization:

- Traditional state-managed fee-for-service
- Services managed under an administrative services organization (ASO) arrangement

Please describe this fee-for-service delivery system, including any bundled payment arrangements, pay for performance, fee-for-service care management models/non-risk, contractual incentives as well as the population served via this delivery system.

A significant proportion of total Medi-Cal expenditures are generated through the FFS health care delivery system. FFS providers render services and then submit claims for payment that are adjudicated, processed and paid (or denied) by the Medi-Cal program's fiscal intermediary. Generally, Medi-Cal outpatient FFS rates are set at no more than 80% of the California Specific Medicare Rate. The CA-MMIS system reimburses at no more than the maximum allowable rate that is on file in the system. Further, as a result of the Managed Care expansion in California, all 58 counties now participate in a Managed Care system, which prior to the expansion served approximately 74% of the total Medi-Cal population or about 6.0M Medi-Cal beneficiaries in 30 counties. Specified services are carved out of the Managed Care Plans and only reimbursed via FFS, such as county based Specialty Mental Health Services (1915 (b) waiver) and Substance Use Disorder Services, which are reimbursed on a cost-based fee-for-service basis, based on certified public expenditures.
