Long term hospitals whose per diem rates as of January 1, 2017, excluding the graduate medical education portion of the per diem, are greater than 42 percent of the January 1, 2017 small rural hospital rate shall not be increased.

Effective for dates of service on or after January 1, 2020, the inpatient per diem rate paid to long-term acute hospitals shall be increased by indexing to 45 percent of the small rural hospital prospective per diem rate in effect on January 1, 2019. METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES - IN-PATIENT HOSPITAL CARE

Effective for dates of service on or after January 1, 2021, the inpatient per diem rate paid to non-rural, non-state free-standing rehabilitation hospitals shall be increased by 3.2 percent of the per diem rate on file as of December 31, 2020.

NICU Rate Adjustment

Effective for dates of service on or after March 1, 2011, the per diem rates for Medicaid inpatient services rendered by NICU Level III and NICU Level III regional units, recognized by the Department as such on December 31, 2010, shall be adjusted to include an increase that varies based on the following five tiers:

Tier 1. The qualifying hospital's average percentage exceeds 10 percent, the additional per diem increase shall be \$601.98;

Tier 2. The qualifying hospital's average percentage is less than or equal to 10 percent, but exceeds 5 percent, the additional per diem increase shall be \$624.66;

Tier 3. The qualifying hospital's average percentage is less than or equal to 5 percent, but exceeds 1.5 percent, the additional per diem increase shall be \$419.83;

Tier 4. The qualifying hospital's average percentage is less than or equal to 1.5 percent, but greater than 0 percent, and the hospital received greater than .25 percent of the outlier payments for dates of service in state fiscal year (SFY) 2008 and SFY 2009 and calendar year 2010, the additional per diem increase shall be \$263.33; or

Tier 5. The qualifying hospital received less than 25 percent, but greater than 0 percent of the outlier payments for dates of service in SFY 2008 and SFY 2009 and calendar year 2010, the additional per diem increase shall be \$35.

Tier Placement Criteria

Placement into a tier will be determined by the average of a hospital's percentage of paid NICU Medicaid days for SFY 2010 dates of service to the total of all qualifying hospitals' paid NICU days for the same time period, and its percentage of NICU patient outlier payments made as of December 31, 2010 for dates of service in SFY 2008 and SFY 2009 and calendar year 2010 to the total NICU outlier payments made to all qualifying hospitals for these same time periods.

1. This average shall be weighted to provide that each hospital's percentage of paid NICU days will comprise 25 percent of this average, while the percentage of outlier payments will comprise 75 percent.
2. In order to qualify for Tiers 1 through 4, a hospital must have received at least .25 percent of outlier payments in SFY 2008, SFY 2009, and calendar year 2010.

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES - IN-PATIENT HOSPITAL CARE

3. SFY 2010 is used as the base period to determine the allocation of NICU and PICU outlier payments for hospitals having both NICU and PICU units.
4. If the daily paid outlier amount per paid NICU day for any hospital is greater than the mean plus one standard deviation of the same calculation for all NICU Level III and NICU Level III regional hospitals, then the basis for calculating the hospital's percentage of NICU patient outlier payments shall be to substitute a payment amount equal to the highest daily paid outlier amount of any hospital not exceeding this limit, multiplied by the exceeding hospital's paid NICU days for SFY 2010, to take the place of the hospital's actual paid outlier amount.

The Department shall evaluate all rates and tiers two years after implementation.

PAYMENT FOR MEDICAL AND REMEDIAL CARE AND SERVICES

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES – INPATIENT HOSPITAL CARE:

G. Transplant Services

Routine operating costs and ancillary charges associated with an approved transplant are carved out of the hospital's cost report. Reimbursement is limited to the lesser of cost or the hospital-specific per diem limitation for each type of transplant. Cost is defined as the hospital-specific ratio of cost to charges from the base period multiplied by the covered charges for the specific transplant type.

Per diem limitation is calculated by deriving the hospital's per diem for the transplant type from the hospital's base period trended forward using the Medicare target rate percentage for PPS-exempt hospitals each year.

The base period is the cost reporting period for the hospital fiscal year ending September 30, 1983 through August 31, 1984 or the first cost report filed subsequently that contains costs for that type of transplant.
