Tribal Consultation

For changes that directly impact their organization or Native American enrollees, the State of Missouri will send all federally-recognized tribes, Indian Health Programs and Urban Indian Organizations (UIO) within the State of Missouri an electronic notification for all Medicaid and CHIP programs regarding state plan amendments, waiver requests and demonstration project proposals prior to submission to CMS in order for tribal/UIO leaders to provide feedback. The notification will describe the purpose of the state plan amendment(s), waiver request(s) or demonstration project proposal(s), the anticipated impact on the UIO or Native American enrollees and provide information regarding the process for which to provide comments. The notification will provide a 30 day time period for review and comment.

For changes that the State determines do not directly impact the UIO or Native American enrollees, the State will still provide an email notification. The email will notify the UIO that a direct impact is not anticipated, but a review of the proposals and comments are still be welcome, but not required

When a state plan amendment, waiver request or project proposal that will have a direct impact on the UIO or Native American enrollees needs to be submitted to CMS under circumstances that would require less than 30 days' notice, the State will notify the UIO via a phone call and a follow-up electronic notification. This notice will include a description of state plan amendment, waiver request or demonstration project proposal. It will provide at least a 7 day time period for review and submission of comments. State: Missouri

Tribal Consultation (continued)

The UIO will respond to the State with comments or notify the state they have no comments or do not wish to comment as soon as that information/determination is made but not later than 30 days of receipt or not later than 7 days of receipt when circumstances require less than 30 days' notice. If the State has not received feedback or recommendations regarding the state plan amendment(s), waiver request(s) or demonstration project proposal(s), the State shall assume that the UIO does not have any questions or concerns regarding the state plan amendment(s), waiver request(s) or project proposal(s).

Please describe the consultation process that occurred specifically for the development and submission of this State Plan Amendment, when it occurred and who was involved.

In October 2021, the State was notified by CMS that an Urban Indian Organization existed in the State of Missouri. CMS provided information regarding required consultation requirements with tribal entities regarding proposed state plan amendments, waiver requests and proposals for demonstrations projects. On November 11, 2021, MHD met with CMS to discuss requirement of tribal notification.

On February 2, 2022, the State met with the Executive Director of Missouri's single qualifying entity, Heart of America Indian Center, Inc., d/b/a Kansas City Indian Center (KCIC), an Urban Indian Organization to establish a process for notification of all proposed changes to the Missouri Medicaid and CHIP programs, including the process for seeking their comment and input. On February 14, 2022, the State provided a summary of the agreed processes to KCIC for approval prior to submission to CMS.
