Alternative Benefit Plan

Describe program below:

Ohio has provided managed care since 1978 and operated a mandatory enrollment program since 1989. Currently, the majority of Ohio's Medicaid beneficiaries are enrolled in Medicaid managed care plans (MCPs). Approximately 1.7 million out of 2.3 million total Medicaid eligibles are covered under Medicaid managed care. The managed care beneficiaries are comprised of Covered Families and Children (CFC) and Aged, Blind, and Disabled (ABD) populations, including approximately 37,000 children with special health care needs. There are five managed care plans serving Medicaid beneficiaries across the state by way of three service regions. As a result, Medicaid managed care beneficiaries have a greater choice in selecting a plan that best suits their individual health care needs.

The Bureau of Managed Care has primary oversight for the monitoring of the MCPs. Other bureaus within ODM oversee managed care functions such as clinical, rate-setting and financial performance monitoring and assessment. Managed care has been implemented as a means to improve access to health care, continuity of care and quality of care for Medicaid beneficiaries, provider accountability and cost predictability. As a supplement to Ohio's existing 1932(a) authority, effective July 1, 2013, Ohio added SSI children under the age of 21 to the Medicaid managed care program under a 1915(b) waiver approved by CMS. CMS has also approved a 1915(b)(c) waiver, for an effective date of March 1, 2014 that will allow the enrollment of Medicaid-Medicare duals in managed care through the Integrated Care Delivery System (ICDS) Demonstration.

The Alternative Benefit Plan will be provided through a managed care organization (MCO) consistent with applicable managed care requirements (42 CFR Part 438, and sections 1903(m), 1932 and 1937 of the Social Security Act).

Provide any additional details regarding this service delivery system (optional):

As a part Ohio Department of Medicaid’s (ODM) effort to launch the next generation of its managed care program, ODM will implement Ohio Resilience through Integrated Systems and Excellence (OhioRISE), a specialized managed care program for youth with complex behavioral health and multi-system needs. OhioRISE aims to shift the system of care and keep more kids and families together by creating new access to in-home and community-based services for children with the most complex behavioral health challenges.

On April 1, 2021, ODM selected Aetna Better Health of Ohio to serve as the new OhioRISE specialized managed care organization for the state’s children with the most complex behavioral health and multi-system needs. Website link: <https://managedcare.medicaid.ohio.gov/wps/portal/gov/manc/managed-care/ohiorise/ohiorise>

The selected OhioRISE plan operates under the authority of a 1915(b)(c) combination waiver as an at-risk Prepaid Inpatient Health Plan (PIHP) as defined in 42 CFR 438.2. The OhioRISE plan assumes risk for the cost of the services covered under the contract; and incurs loss if the cost of furnishing the services exceeds the payments under the contract. OhioRISE will feature intensive care coordination and both new and enhanced behavioral health services targeted toward this population along with offering a new Medicaid waiver program that will help families prevent custody relinquishment. OhioRISE will drive toward improving cross-system outcomes for its enrollees.

The OhioRISE plan will be paid a per member per month amount. ODM must pay the OhioRISE plan rates that are actuarially sound, as determined by an outside actuary in accordance with 42 CFR 438.4 (October 1, 2020), 42 CFR 438.5 (October 1, 2020), and CMS’s Medicaid Managed Care Rate Development Guide. ODM’s actuary will develop capitation rates for the OhioRISE plan that is “actuarially sound” for the period covered by the certification, projected capitation rates and other revenue sources provide for all reasonable, appropriate, and attainable costs. Costs include but are not limited to expected health benefits, health benefit settlement expenses, administrative expenses, the cost of capital and government mandated assessments, fees, and taxes.

Through the administrative component of the capitation rate paid to the OhioRISE plan by ODM, the OhioRISE plan will be compensated for the cost of the requirements found in these rules.

For the OhioRISE plan, the rates and actuarial methods will be found in Appendix M (“Rate Methodology”) of the Medicaid OhioRISE Plan Provider Agreement. Website link: <https://managedcare.medicaid.ohio.gov/wps/portal/gov/manc/managed-care/ohiorise/ohiorise>

The OhioRISE plan will partner with state agencies, providers, and community organizations to expand access to in-home and community-based services. Aetna will contract with regional care management entities to ensure OhioRISE members and families have the resources they need to navigate their interactions with multiple systems such as juvenile justice and corrections, child protection, developmental disabilities, mental health and addiction, education, and others.
