Urban Indian Health Organizations. All other services are provided through fee-for-service. American Indians/Alaska Natives (AI/AN) have a federal right to exempt themselves from Medicaid managed care, in part because Tribal clinics and Urban Indian Health Organizations already have the responsibility to manage the care of their AI/AN clients. In respect of this federal trust responsibility and of the relationship between Tribal clinics/Urban Indian Health Organizations and their clients, the State has offered the PCCM program through Tribal clinics and Urban Indian Health Organizations since it offered Medicaid managed care to non-AI/ANs. With a nominal monthly payment, the PCCM program supports care coordination by Tribal clinics and Urban Indian Health Organizations for clients who are not participating in Medicaid managed care and therefore not receiving care coordination from Medicaid managed care organizations.
