1) Effective January 1, 2019, the reimbursement rates for Diabetes Prevention Program (DPP) services will be set at no more than 80 percent of the corresponding Medicare rate for the same or similar service. Any rate reflected at or below 80 percent will not be decreased until federal approval is obtained.

2) Except as otherwise noted in the State plan, state-developed fee schedules are the same for both governmental and private providers of DPP services.
