**RE: October – December 2022 Phased-Down  
State Contribution Final Per-Capita Rates**

October 14, 2022

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA) requires that the Centers for Medicare & Medicaid Services (CMS) notify each State, no later than October 15 of each calendar year (CY), of its annual per capita drug payment expenditure amount for the following year. Payments for the phased-down State contribution are made on a monthly basis. These payments are defined by the MMA to be the product of the annual per capita full dual-eligible drug payment amount and the monthly State enrollment of full-benefit dually eligible beneficiaries.

This Informational Bulletin<sup>1</sup> is to notify you of the phased-down State contribution full dual-eligible per capita Medicaid drug payment amount for October–December 2022, as required by the MMA. The October–December 2022 phased-down State contribution per capita rates are shown in Attachment 1. The per capita drug expenditure amounts for October–December 2022 are based on the values for January–September 2022, adjusted for the change in FMAP, if any, between FY 2022 and FY 2023.

Additionally, on March 18, 2020, the Families First Coronavirus Response Act (P. L. 116-127) was signed into law. Section 6008 of the Act provided for qualifying states a temporary increase to the FMAP. This increase in the FMAP also affects the calculation of the phased-down State contribution per capita rates starting January 1, 2020. This adjustment will only apply to states that qualify for the temporary FMAP increase and while the temporary FMAP increase is in effect. The enhanced FMAP is available for qualifying states until the end of the calendar quarter in which the public health emergency expires. Attachment 1 also provides the rates including this FMAP increase.

In addition, the American Rescue Plan Act of 2021 (P. L. 117-2) was signed into law on March 11, 2021. Section 9814 of the Act provided a temporary FMAP increase of 5 percentage points to states that expanded Medicaid eligibility to all individuals described in section 1902(a)(10)(A)(i)(VIII) under the State plan or waiver of such plan. This FMAP increase would last for 8 calendar year quarters and would only apply for states that expand eligibility after the enactment of the Act. At this time, two states qualify for this FMAP increase (Missouri and Oklahoma). The state contribution rates adjusted for this FMAP increase for these states are shown in Attachment 2.
