Background:

This standalone appendix may be utilized by the state during emergency situations to request amendments to its approved waiver, to multiple approved waivers in the state, and/or to all approved waivers in the state. It includes actions that states can take under the existing Section 1915(c) home and community-based waiver authority in order to respond to an emergency. Other activities may require the use of various other authorities such as the Section 1115 demonstrations or the Section 1135 authorities. This appendix may be applied retroactively as needed by the state. Public notice requirements normally applicable under 1915(c) do not apply to information contained in this Appendix.

**EPD and IDD Waiver**

Retainer payments will be made in accordance with the limitations and requirements set forth in the COVID-19 FAQs for State Medicaid and Children’s Health Insurance Program Agencies (Released June 30, 2020). Retainer payments may only be provided for services categorized as habilitation or personal care services.

Retainer payments for EPD and IDD Waiver providers does not include reimbursement for staff costs of direct care workers.

- The District will collect an attestation from providers acknowledging that retainer payments will be subject to recoupment if inappropriate billing or duplicate payments for services occurred (or in periods of disaster, duplicate uses of available funding streams), as identified in a state or federal audit or any other authorized third party review. Note that "duplicate uses of available funding streams" means using more than one funding stream for the same purpose.
- The District will require an attestation from providers that it will not lay off staff, and will maintain wages at existing levels.
- The District will require an attestation from providers that they had not received funding from any other sources, including but not limited to unemployment benefits and Small Business Administration loans, that would exceed their revenue for the last full quarter prior to the PHE, or that the retainer payments at the level provided by the District would not result in their revenue exceeding that of the quarter prior to the PHE.
  - If a provider had not already received revenues in excess of the pre-PHE level but receipt of the retainer payment in addition to those prior sources of funding results in the provider exceeding the pre-PHE level, any retainer payment amounts in excess would be recouped.
  - If a provider had already received revenues in excess of the pre-PHE level, retainer payments are not available.

**EPD Waiver**

Temporarily allow retainer payments equal to 25% of the standard per diem rate to an AHDP if a participant was unable to attend the ADHP because services could not be rendered as a result of the public health emergency. Retainer payments are not available to ADHP providers that also providing traditional ADHP services or providing services via video/telephonic/electronic conferencing to the same beneficiary on a given date of service. Authorized ADHP providers may receive retainer payments for periods up to 30 consecutive days. Reimbursement is available for multiple consecutive day periods (up to 3 episodes).

**IDD Waiver**
Temporarily allow retainer payments for authorized day program services providers if a participant was unable to attend day program services as a result of the public health emergency, and the participant instead received natural supports, companion services, or in-home supports, not provided by the day program. Retainer payments are available to authorized day program service providers that also provide other types of services to the participant such as residential services, in-home supports, or companion services and will not be excluded from receiving retainer payments when such services are not being provided by the day program. Retainer payments are intended to permit the day program provider to recover a percentage of its costs in order to stay viable and therefore able to provide day program services after the public health emergency has ended. Retainer payments are made only to day program or habilitation service providers. Reimbursement for the provision of other services is separate and includes costs for staff rendering other services.

Authorized day program providers may submit claims for retainer payments for up to 30 consecutive days. Reimbursement is available for multiple consecutive day periods (up to 3 episodes).

A day program provider seeking a retainer payment must document that the individual was unable to attend the day program as a result of the public health emergency and immediately notify the DDA Service Coordinator. Retainer payments will not be authorized when a provider is providing one of the six identified day program services below, whether that be in person or remote. Authorized day program service providers are eligible for retainer payments as follows:

• Day Habilitation – 33% of standard rate
• Day Habilitation 1:1 – 43% of standard rate
• Day Habilitation Small Group – 46% of standard rate
• Individualized Day Supports – 30% of standard rate
• Individualized Day Supports 1:1 – 52% of standard rate
• Supported Employment – 33% to 35% of standard rate

Day Program Service Providers that have stopped or reduced services in response to the COVID-19 public health emergency may bill for retainer payments. Retainer payments are received by billing for units authorized in an individual’s service plan that were not provided due to the COVID-19 public health emergency. Units billed shall not exceed the amount, scope, and duration otherwise authorized for the Day Program Service provider. Retainer payments may not be billed when the individual chooses to receive day program services through a different provider. Retainer payments for day services are limited to 5 days per week (Mon-Sun).

The goal may be related to the person’s safety, promotion of independence, community integration, and/or retirement. Companion services can be used during the day or overnight hours when supervision or non-medical support is needed to ensure the person’s safety.

Companion services provide non-medical assistance and supervision to support a person’s goals, desires, and needs as identified in the person’s Individual Support Plan (ISP), and reflected in his or her Person-Centered Thinking and Discovery tools. Goals may be related to the person’s safety, promotion of independence, community integration, and/or retirement. The provider must use the DDS-approved Person-Centered Thinking and Discovery tools to develop a support plan, based upon what has been identified as important to and for the person. For people who receive companion services during waking hours, this should include a flexible list of proposed leisure and recreational activities at home and in the community, based upon the person’s interests.

Companion services cannot be provided at the same time as In-Home Supports, Periodic Supported Living, Personal Care Services, Respite, Host Home, and/or Behavioral Supports Non-Professional. Companion services may be provided outside of regular Monday to Friday daytime hours when supervision or other non-medical support is necessary to ensure the person’s safety; provided, however, that companion services may not be used outside of regular Monday to Friday daytime hours in combination with Residential Habilitation or 24-Hour Supported Living or 24-Hour Supported Living with Transportation Services. Additionally, companion services may not exceed forty (40) hours per week when used with Residential Habilitation, 24-Hour Supported Living, and 24-Hour Supported Living with Transportation Services, or when used in combination with Personal Care Services or any other Waiver day or vocational support services, including but not limited to Day Habilitation, Employment Readiness, Supported Employment, Small Group Supported Employment, or Individualized Day Supports as part of a person’s traditional Monday to Friday day/vocational programming time.

Numerous changes that the state may want to make may necessitate authority outside of the scope of section 1915(c) authority. States interested in changes to administrative claiming or changes that require section 1115 or section 1135 authority should engage CMS in a discussion as soon as possible. Some examples may include: (a) changes to administrative activities, such as the establishment of a hotline; or (b) suspension of general Medicaid rules that are not addressed under section 1915(c) such as payment rules or eligibility rules or suspension of provisions of section 1902(a) to which 1915(c) is typically bound.
