Background:

This standalone appendix may be utilized by the state during emergency situations to request amendments to its approved waiver, to multiple approved waivers in the state, and/or to all approved waivers in the state. It includes actions that states can take under the existing Section 1915(c) home and community-based waiver authority in order to respond to an emergency. Other activities may require the use of various other authorities such as the Section 1115 demonstrations or the Section 1135 authorities. This appendix may be applied retroactively as needed by the state. Public notice requirements normally applicable under 1915(c) do not apply to information contained in this Appendix.

Appendix K-1: General Information

General Information:

A. State: Iowa

B. Waiver Title(s):

- Iowa Children’s Mental Health Waiver
- Iowa HCBS AIDS Waiver

E. **Brief Description of Emergency.** *In no more than one paragraph each,* briefly describe the: 1) nature of emergency; 2) number of individuals affected and the state’s mechanism to identify individuals at risk; 3) roles of state, local and other entities involved in approved waiver operations; and 4) expected changes needed to service delivery methods, if applicable. The state should provide this information for each emergency checked if those emergencies affect different geographic areas and require different changes to the waiver.

This Appendix K is in addition to Iowa’s previously approved Appendix Ks and is being submitted due to the COVID-19 pandemic in order to modify provider recertification and enrollee assessment processes within the State’s 1915(c) programs. This amendment will apply waiver-wide for each waiver included in this Appendix, to all individuals impacted by the virus or the response to the virus (e.g. closure of day programs, etc.).

F. **Proposed Effective Date:** **Start Date:** January 27, 2020  **Anticipated End Date:** six months after the expiration of the PHE.

G. **Description of Transition Plan.**

All activities will take place in response to the impact of COVID-19 as efficiently and effectively as possible based upon the complexity of the change.

H. **Geographic Areas Affected:**

These actions will apply across the waiver to all individuals impacted by the COVID-19 virus.

I. **Description of State Disaster Plan (if available)** Reference to external documents is acceptable:

**Appendix K-2: Temporary or Emergency-Specific Amendment to Approved Waiver**

**Temporary or Emergency-Specific Amendment to Approved Waiver:**

*These are changes that, while directly related to the state’s response to an emergency situation, require amendment to the approved waiver document. These changes are time limited and tied specifically to individuals impacted by the emergency. Permanent or long-ranging changes will need to be incorporated into the main appendices of the waiver, via an amendment request in the waiver management system (WMS) upon advice from CMS.*

a. **Access and Eligibility:**

i. Temporarily increase the cost limits for entry into the waiver.
ii. Temporarily modify additional targeting criteria.
[Explanation of changes]

b. Services

temporarily modify service scope or coverage.
[Complete Section A- Services to be Added/Modified During an Emergency.]

temporarily exceed service limitations (including limits on sets of services as described in Appendix C-4) or requirements for amount, duration, and prior authorization to address health and welfare issues presented by the emergency.
[Explanation of changes]

temporarily add services to the waiver to address the emergency situation (for example, emergency counseling; heightened case management to address emergency needs; emergency medical supplies and equipment; individually directed goods and services; ancillary services to establish temporary residences for dislocated waiver enrollees; necessary technology; emergency evacuation transportation outside of the scope of non-emergency transportation or transportation already provided through the waiver).
[Complete Section A-Services to be Added/Modified During an Emergency]

temporarily expand setting(s) where services may be provided (e.g. hotels, shelters, schools, churches). Note for respite services only, the state should indicate any facility-based settings and indicate whether room and board is included:
[Explanation of modification, and advisement if room and board is included in the respite rate]:

temporarily provide services in out of state settings (if not already permitted in the state’s approved waiver).
[Explanation of changes]

c. Temporarily permit payment for services rendered by family caregivers or legally responsible individuals if not already permitted under the waiver. Indicate the services to
which this will apply and the safeguards to ensure that individuals receive necessary services as authorized in the plan of care, and the procedures that are used to ensure that payments are made for services rendered.

d. **X** Temporarily modify provider qualifications (for example, expand provider pool, temporarily modify or suspend licensure and certification requirements).

i. **X** Temporarily modify provider qualifications.
   
   [Provide explanation of changes, list each service affected, list the provider type, and the changes in provider qualifications.]

   To the extent that a provider is unable to complete the desk or onsite review process required for recertification due to the burden of submitting additional documentation caused by resource capacity issues during the PHE, the IME will extend the certification process in 90 day increments through the established exception to policy process. The IME will only extend certification for providers who are in good standing, do not have outstanding corrective action plans (CAPS) and/or CAPS that have not been met, and who are not under active investigation for reported noncompliance with HCBS quality standards. Providers seeking to have their certification extended due to resource capacity issues directly related to the PHE may request an exception to policy (ETP). The IME reviews each request on an individual basis and determines if the provider is in good standing and whether sufficient detail has been provided to determine that an ETP is warranted. If the provider’s circumstances meet the criteria established the provider will be granted an ETP to extend their certification for 90 days. Should the provider require additional time, the provider may submit subsequent ETP requests and provide IME with documentation detailing the circumstances that are preventing the provider from completing the recertification process, with a maximum allowance of four (4) 90-day extensions per provider. IME assures extensions of recertifications due to the provider’s inability to participate in the review process will not exceed the end date of the Appendix K authority.

The following providers are affected by this temporary change: Adult Day Care, Agency Consumer-Directed Attendant Care (CDAC), Assisted Living Service, Behavior Programming, Counseling, Day Habilitation, Case Management, Family & Community Support, Family Counseling & Training, In-Home Family Therapy, Interim Medical Monitoring & Treatment (IMMT), Mental Health Outreach, Prevocational, Residential-Based Supported Community Living (RBSCL), Respite, Supported Community Living (SCL), and Supported Employment (SE).

ii. **X** Temporarily modify provider types.
   
   [Provide explanation of changes, list each service affected, and the changes in the provider type for each service].
iii. **Temporarily modify licensure or other requirements for settings where waiver services are furnished.**

[Provide explanation of changes, description of facilities to be utilized and list each service provided in each facility utilized.]

---

e. **Temporarily modify processes for level of care evaluations or re-evaluations (within regulatory requirements).** [Describe]

For all 1915(c) waivers, with the exception of the Intellectual Disabilities Waiver, an Emergency Needs Assessment (ENA) can be completed in lieu of the annual interRAI and Mayo Portland Adaptability Inventory MPAI-IV for the BI waiver re-assessment for enrollees unable to participate in the full re-assessment process through video or telephonic conferencing. The Emergency Needs Assessment assesses functioning and related risk factors in five domains including activities of daily living, instrumental activities of daily living, cognitive function, memory and learning, and behavior concerns. The ENA also captures any skilled services that the member currently receives as well as medical conditions and diagnoses and any related risk factors. The ENA is completed at the request of the Case Manager (CM) to determine if the member has experienced a significant change in his/her condition. The criteria for a referral for a full interRAI is when the ENA identifies significant change in at least 3 of the 5 domains on the ENA and the changes are likely to continue. If the ENA indicates a significant change since the last assessment, a full interRAI will be administered. For the BI Waiver, the Mayo Portland Adaptability Inventory MPAI-IV and interRAI-HC will also be administered if the ENA indicates a significant change.

Iowa will continue current processes for level of care re-evaluations for the Intellectual Disabilities Waiver enrollees. Specifically, the Supports Intensity Scale (SIS) must be completed for each participant once in a three-year time period. During the two “off” years, an off year assessment tool is utilized for annual level of care redeterminations. The off year assessment reviews and identifies if any significant changes have occurred that would change the results and findings of the current SIS assessment. If there is significant change, a new SIS is administered. However, in the event an Intellectual Disabilities Waiver enrollee is due for their full SIS assessment during the PHE and is unable to participate in the full re-assessment process through video or telephonic conferencing, the off year assessment tool will be utilized.

f. **Temporarily increase payment rates.**

[Provide an explanation for the increase. List the provider types, rates by service, and specify whether this change is based on a rate development method that is different from the current approved waiver (and if different, specify and explain the rate development method). If the rate varies by provider, list the rate by service and by provider.]
g. Temporarily modify person-centered service plan development process and individual(s) responsible for person-centered service plan development, including qualifications.
[Describe any modifications including qualifications of individuals responsible for service plan development, and address Participant Safeguards. Also include strategies to ensure that services are received as authorized.]

h. Temporarily modify incident reporting requirements, medication management or other participant safeguards to ensure individual health and welfare, and to account for emergency circumstances. [Explanation of changes]

i. Temporarily allow for payment for services for the purpose of supporting waiver participants in an acute care hospital or short-term institutional stay when necessary supports (including communication and intensive personal care) are not available in that setting, or when the individual requires those services for communication and behavioral stabilization, and such services are not covered in such settings.
[Specify the services.]

j. Temporarily include retainer payments to address emergency related issues.
[Describe the circumstances under which such payments are authorized and applicable limits on their duration. Retainer payments are available for habilitation and personal care only.]

k. Temporarily institute or expand opportunities for self-direction.
[Provide an overview and any expansion of self-direction opportunities including a list of services that may be self-directed and an overview of participant safeguards.]

l. Increase Factor C.
[Explain the reason for the increase and list the current approved Factor C as well as the proposed revised Factor C]
m. Other Changes Necessary [For example, any changes to billing processes, use of contracted entities or any other changes needed by the State to address imminent needs of individuals in the waiver program].  [Explanation of changes]

**Appendix K Addendum: COVID-19 Pandemic Response**

1. **HCBS Regulations**
   a. □ Not comply with the HCBS settings requirement at 42 CFR 441.301(c)(4)(vi)(D) that individuals are able to have visitors of their choosing at any time, for settings added after March 17, 2014, to minimize the spread of infection during the COVID-19 pandemic.

2. **Services**
   a. □ Add an electronic method of service delivery (e.g., telephonic) allowing services to continue to be provided remotely in the home setting for:
      i. □ Case management
      ii. □ Personal care services that only require verbal cueing
      iii. □ In-home habilitation
      iv. □ Monthly monitoring (i.e., in order to meet the reasonable indication of need for services requirement in 1915(c) waivers).
      v. □ Other [Describe]:

   b. □ Add home-delivered meals
   c. □ Add medical supplies, equipment and appliances (over and above that which is in the state plan)
   d. □ Add Assistive Technology

3. **Conflict of Interest:** The state is responding to the COVID-19 pandemic personnel crisis by authorizing case management entities to provide direct services. Therefore, the case management entity qualifies under 42 CFR 441.301(c)(1)(vi) as the only willing and qualified entity.
   a. □ Current safeguards authorized in the approved waiver will apply to these entities.
   b. □ Additional safeguards listed below will apply to these entities.
4. Provider Qualifications
   a. ☐ Allow spouses and parents of minor children to provide personal care services
   b. ☐ Allow a family member to be paid to render services to an individual.
   c. ☐ Allow other practitioners in lieu of approved providers within the waiver. [Indicate the providers and their qualifications]
   d. ☐ Modify service providers for home-delivered meals to allow for additional providers, including non-traditional providers.

5. Processes
   a. ☐ Allow an extension for reassessments and reevaluations for up to one year past the due date.
   b. ☐ Allow the option to conduct evaluations, assessments, and person-centered service planning meetings virtually/remotely in lieu of face-to-face meetings.
   c. ☐ Adjust prior approval/authorization elements approved in waiver.
   d. ☐ Adjust assessment requirements
   e. ☐ Add an electronic method of signing off on required documents such as the person-centered service plan.

Numerous changes that the state may want to make may necessitate authority outside of the scope of section 1915(c) authority. States interested in changes to administrative claiming or changes that require section 1115 or section 1135 authority should engage CMS in a discussion as soon as possible. Some examples may include: (a) changes to administrative activities, such as the establishment of a hotline; or (b) suspension of general Medicaid rules that are not addressed under section 1915(c) such as payment rules or eligibility rules or suspension of provisions of section 1902(a) to which 1915(c) is typically bound.
