

APPENDIX K: Emergency Preparedness and Response and COVID-19 Addendum

Background:

This standalone appendix may be utilized by the state during emergency situations to request amendments to its approved waiver, to multiple approved waivers in the state, and/or to all approved waivers in the state. It includes actions that states can take under the existing Section 1915(c) home and community-based waiver authority in order to respond to an emergency. Other activities may require the use of various other authorities such as the Section 1115 demonstrations or the Section 1135 authorities.¹ This appendix may be applied retroactively as needed by the state. Public notice requirements normally applicable under 1915(c) do not apply to information contained in this Appendix.

[Specify the services.]

j. X Temporarily include retainer payments to address emergency related issues.

[Describe the circumstances under which such payments are authorized and applicable limits on their duration. Retainer payments are available for habilitation and personal care only.]

Retainer payments will be made to providers to address reductions in utilization of services related to the COVID-19 emergency, such as missed appointments or decreased frequency of members receiving services. The payments are intended to ensure provider sustainability by helping to offset the reduction in revenue experienced by providers due to members staying home and avoiding care, or providers otherwise being unable to provide in-person or telehealth services to members.

The State of Kansas currently intends to implement retainer payments as follows:

- Retainer payments will be authorized for providers of habilitation and personal care services. Services are only eligible for retainer payments if the service is for personal care or a habilitation service that includes components of personal care.
 - Specific provider types and procedure codes will be identified.
- Qualifying providers will bill for specific services that would have been provided to specific members.
- Retainer payments may only be billed for specific services authorized and documented in the member's service plan that was in effect on March 1, 2020.
 - A modifier will be identified to be used by providers to bill for retainer payments during the emergency period.
- The State of Kansas will establish additional billing, reporting, submission, and payment requirements and timelines for providers and MCOs in order to ensure timely and accurate payment of claims and submission of encounters.
- Retainer payments are anticipated to be made available to qualifying providers for qualifying habilitation and personal care services for the duration of the emergency period, not to exceed the lesser of 30 consecutive days or the number of days for which the state authorizes a payment for bed hold in nursing facilities.
- Through billing procedures, the MCOs, with state oversight, will ensure that there will be no duplicative payments. The State of Kansas will verify that the MCOs are ensuring there is no double or duplicative billing or payments for these services.

k. ___ Temporarily institute or expand opportunities for self-direction.

[Provide an overview and any expansion of self-direction opportunities including a list of services that may be self-directed and an overview of participant safeguards.]

l. ___ Increase Factor C.
