APPENDIX K: Emergency Preparedness and Response and COVID-19 Addendum

Background:

This standalone appendix may be utilized by the state during emergency situations to request amendments to its approved waiver, to multiple approved waivers in the state, and/or to all approved waivers in the state. It includes actions that states can take under the existing Section 1915(c) home and community-based waiver authority in order to respond to an emergency. Other activities may require the use of various other authorities such as the Section 1115 demonstrations or the Section 1135 authorities.¹ This appendix may be applied retroactively as needed by the state. Public notice requirements normally applicable under 1915(c) do not apply to information contained in this Appendix.

Appendix K-1: General Information

General Information:

A. State: Louisiana

B. Waiver Title(s): Coordinated System of Care

C. Control Number(s):

LA.0889.R01.06

D. Type of Emergency (The state may check more than one box):

X	Pandemic or Epidemic

0	Other (specify):

E. Brief Description of Emergency. *In no more than one paragraph each*, briefly describe the: 1) nature of emergency; 2) number of individuals affected and the state's mechanism to identify individuals at risk; 3) roles of state, local and other entities involved in approved waiver operations; and 4) expected changes needed to service delivery methods, if applicable. The state should provide this information for each emergency checked if those emergencies affect different geographic areas and require different changes to the waiver.

On March 11, 2020 the World Health Organization declared COVID-19 a global pandemic. The same day Louisiana declared a public health emergency. The virus affected 6 individuals on March 10, 2020 and 13 by March 11, 2020. The Louisiana Department of Health discovered the first case wasn't travel-related, but spread through community interaction. The Louisiana Department of Health is engaged in the following priority public health actions, including but not limited to:

- Working with healthcare facilities with presumptive patients to identify exposed healthcare workers and make appropriate recommendations;
- Ensuring all recommended infection control precautions are implemented in the healthcare facilities until it is determined that the patient is no longer infectious;
- Notifying and monitoring close contacts;
- Notifying the CDC;
- Updating the public by website and television media outlets twice daily; and
- Maintaining an information line.

As per the community transfer risk of the COVID-19, we expect this virus to affect all parts of the State within the next month. As such, we are requesting exceptions to our current waiver in order to minimize the risk to members enrolled in the Coordinated System of Care program, while still serving them and addressing their needs.

Appendix K-2: Temporary or Emergency-Specific Amendment to Approved Waiver

Temporary or Emergency-Specific Amendment to Approved Waiver:

These are changes that, while directly related to the state's response to an emergency situation, require amendment to the approved waiver document. These changes are time limited and tied specifically to individuals impacted by the emergency. Permanent or long-ranging changes will

need to be incorporated into the main appendices of the waiver, via an amendment request in the waiver management system (WMS) upon advice from CMS.

i Numerous changes that the state may want to make may necessitate authority outside of the scope of section 1915(c) authority. States interested in changes to administrative claiming or changes that require section 1115 or section 1135 authority should engage CMS in a discussion as soon as possible. Some examples may include: (a) changes to administrative activities, such as the establishment of a hotline; or (b) suspension of general Medicaid rules that are not addressed under section 1915(c) such as payment rules or eligibility rules or suspension of provisions of section 1902(a) to which 1915(c) is typically bound.
