

# APPENDIX K: Emergency Preparedness and Response and COVID-19 Addendum

## Background:

This standalone appendix may be utilized by the state during emergency situations to request amendments to its approved waiver, to multiple approved waivers in the state, and/or to all approved waivers in the state. It includes actions that states can take under the existing Section 1915(c) home and community-based waiver authority in order to respond to an emergency. Other activities may require the use of various other authorities such as the Section 1115 demonstrations or the Section 1135 authorities.<sup>i</sup> This appendix may be applied retroactively as needed by the state. Public notice requirements normally applicable under 1915(c) do not apply to information contained in this Appendix.

## Appendix K-2: Temporary or Emergency-Specific Amendment to Approved Waiver

### Temporary or Emergency-Specific Amendment to Approved Waiver:

*These are changes that, while directly related to the state's response to an emergency situation, require amendment to the approved waiver document. These changes are time limited and tied specifically to individuals impacted by the emergency. Permanent or long-ranging changes will need to be incorporated into the main appendices of the waiver, via an amendment request in the waiver management system (WMS) upon advice from CMS.*

[Complete Section A-Services to be Added/Modified During an Emergency]

**iv. \_\_\_ Temporarily expand setting(s) where services may be provided (e.g. hotels, shelters, schools, churches). Note for respite services only, the state should indicate any facility-based settings and indicate whether room and board is included:**

List the provider types, rates by service, and specify whether this change is based on a rate development method that is different from the current approved waiver (and if different, specify and explain the rate development method). If the rate varies by provider, list the rate by service and by provider.]

Effective 4/1/22 and through 6/30/22, a temporary rate increase of 5% will apply to the following services:

- community residential services;
- customized living (BI and CADI);
- extended personal care assistance;
- individualized home supports (with and without training); and
- integrated community supports (BI and CADI).

To qualify for this rate increase, providers must attest that the additional funds will be used only for the recruitment and retention of direct care workers.

CDCS budgets currently provide participants with the flexibility to pay higher rates for personal assistance compared to rates for extended PCA under the state plan. Our most recent analysis of labor market data shows that direct care workers for CDCS participants receive hourly wages that are approximately 30% higher than wages for workers who provide traditional waiver services. Given the temporary nature of this rate increase and its limited scope, it is not necessary to increase individual CDCS budgets. CDCS participants will not be at a disadvantage in terms of their ability to pay competitive rates to direct care workers.

The services subject to the rate increase are not included in the service menu for CDCS (the self-directed option for our HCBS waivers). These rate increases will have no effect on the ability of CDCS participants to access the services that they need.

All services authorized in a participant's support plan will continue to be provided during the effective period of this temporary rate increase.

**g. \_\_\_ Temporarily modify person-centered service plan development process and individual(s) responsible for person-centered service plan development, including qualifications.**

[Describe any modifications including qualifications of individuals responsible for service plan development, and address Participant Safeguards. Also include strategies to ensure that services are received as authorized.]

**h. \_\_\_ Temporarily modify incident reporting requirements, medication management or other participant safeguards to ensure individual health and welfare, and to account for emergency circumstances. [Explanation of changes]**

**i. \_\_\_ Temporarily allow for payment for services for the purpose of supporting waiver participants in an acute care hospital or short-term institutional stay when necessary supports (including communication and intensive personal care) are not available in that setting, or**

**when the individual requires those services for communication and behavioral stabilization, and such services are not covered in such settings.**

[Specify the services.]

**j. \_\_\_ Temporarily include retainer payments to address emergency related issues.**

[Describe the circumstances under which such payments are authorized and applicable limits on their duration. Retainer payments are available for habilitation and personal care only.]

**k. \_\_\_ Temporarily institute or expand opportunities for self-direction.**

[Provide an overview and any expansion of self-direction opportunities including a list of services that may be self-directed and an overview of participant safeguards.]

**l. \_\_\_ Increase Factor C.**

[Explain the reason for the increase and list the current approved Factor C as well as the proposed revised Factor C]

**m. \_\_\_ Other Changes Necessary [For example, any changes to billing processes, use of contracted entities or any other changes needed by the State to address imminent needs of individuals in the waiver program].** [Explanation of changes]

<sup>i</sup> Numerous changes that the state may want to make may necessitate authority outside of the scope of section 1915(c) authority. States interested in changes to administrative claiming or changes that require section 1115 or section 1135 authority should engage CMS in a discussion as soon as possible. Some examples may include: (a) changes to administrative activities, such as the establishment of a hotline; or (b) suspension of general Medicaid rules that are not addressed under section 1915(c) such as payment rules or eligibility rules or suspension of provisions of section 1902(a) to which 1915(c) is typically bound.
