

APPENDIX K: Emergency Preparedness and Response and COVID-19 Addendum

Background:

This standalone appendix may be utilized by the state during emergency situations to request amendments to its approved waiver, to multiple approved waivers in the state, and/or to all approved waivers in the state. It includes actions that states can take under the existing Section 1915(c) home and community-based waiver authority in order to respond to an emergency. Other activities may require the use of various other authorities such as the Section 1115 demonstrations or the Section 1135 authorities.¹ This appendix may be applied retroactively as needed by the state. Public notice requirements normally applicable under 1915(c) do not apply to information contained in this Appendix.

COVID-19 pandemic. This amendment will apply waiver-wide for each waiver included in this Appendix, to all individuals impacted by the virus or the response to the virus (e.g. closure of day programs, etc.)

New York seeks to amend the original Appendix K to the OPWDD Comprehensive 1915(c) HCBS Waiver serving people with intellectual and/or developmental disabilities (I/DD) HCBS waiver 238 (R06.01) approved on April 7, 2020 with subsequent revisions. All approved changes in prior CMS Appendix K approvals remain in effect due to the continuing nationwide Public Health Emergency determination made by the Secretary of the Department of Health and Human Services.

In response to COVID-related revenue losses for OPWDD HCBS Waiver providers, this amendment delays certain rate setting methodology changes that were slated to take effect in 2019 or 2020 until the end of OPWDD's Appendix K authority.

F. Proposed Effective Date: Start Date: 03/07/20 **Anticipated End Date:** Six months following the end date of the Public Health Emergency for COVID-19

G. Description of Transition Plan.

All activities will take place in response to the impact of COVID-19 as efficiently and effectively as possible based upon the complexity of the change.

Appendix K-2: Temporary or Emergency-Specific Amendment to Approved Waiver

Temporary or Emergency-Specific Amendment to Approved Waiver:

These are changes that, while directly related to the state's response to an emergency situation, require amendment to the approved waiver document. These changes are time limited and tied specifically to individuals impacted by the emergency. Permanent or long-ranging changes will

need to be incorporated into the main appendices of the waiver, via an amendment request in the waiver management system (WMS) upon advice from CMS.

[Provide explanation of changes and specify the temporary cost limit.]

ii. ___ Temporarily modify additional targeting criteria.

[Explanation of changes]

b. ___ Services

[Complete Section A- Services to be Added/Modified During an Emergency.]

ii. ___ Temporarily exceed service limitations (including limits on sets of services as described in Appendix C-4) or requirements for amount, duration, and prior authorization to address health and welfare issues presented by the emergency.

[Explanation of changes]

iii. ___ Temporarily add services to the waiver to address the emergency situation (for example, emergency counseling; heightened case management to address emergency needs; emergency medical supplies and equipment; individually directed goods and services; ancillary services to establish temporary residences for dislocated waiver enrollees; necessary technology; emergency evacuation transportation outside of the scope of non-emergency transportation or transportation already provided through the waiver).

[Complete Section A-Services to be Added/Modified During an Emergency]

iv. ___ Temporarily expand setting(s) where services may be provided (e.g. hotels, shelters, schools, churches). Note for respite services only, the state should indicate any facility-based settings and indicate whether room and board is included:

[Explanation of modification, and advisement if room and board is included in the respite rate]:

v. ___ Temporarily provide services in out of state settings (if not already permitted in the state's approved waiver). [Explanation of changes]

c. ___ Temporarily permit payment for services rendered by family caregivers or legally responsible individuals if not already permitted under the waiver. approved waiver (and if different, specify and explain the rate development method). If the rate varies by provider, list the rate by service and by provider.]

In response to the COVID-related revenue losses, NYS will delay implementation of certain rate setting provisions for the period of time in which the Appendix K is in effect for Residential Habilitation. The following provision described in Addendum A of Appendix I-2 is delayed until six months following the end of the pandemic for voluntary (non-State Government) providers:

The Occupancy Adjustment will not be set to 0%, as approved in NYS NY Waiver – NY.0238.R06.03. Vacancy days will continue to be reimbursed through an occupancy adjustment, which will remain at the level calculated for the rates in effect as of July 1, 2020. The occupancy adjustment for the July 1, 2020 rates was based on the twelve months of experience from January 1 – December 31, 2019.

Additionally, in response to the COVID-related revenue losses, NYS will delay implementation of certain rate setting provisions for the period of time in which the Appendix K is in effect for Residential Habilitation, Day Habilitation and Prevocational Services. The below provision described in Addendum A of Appendix I-2 is delayed until six months following the end of the pandemic for voluntary (non-State Government) providers:

Allowable Agency Administration costs for voluntary (non-State Government) used in the calculation of the provider’s rate will not be limited to the 15 percent screen which was approved in NYS NY Waiver – NY.0238.R06.00. The total Agency Administration Allocation from the base year cost report will continue to be used in the calculation of the provider’s rate.

The rate changes specified above had the intent of reducing rates by an average of 2.2% for the applicable services at the time of their approval. For several reasons, the implementation of these measures was delayed and with the increasing and on-going impact of COVID it was untenable to take action on these measures. This Appendix K voids Occupancy Adjustment changes effective 10/1/2020 and voids the limit to Allowable Administration costs effective 3/7/2020, delaying implementation of these actions until termination of the Appendix K, allowing providers to maintain their current rates. These changes only apply to Fee-For-Service providers.

g. ___ Temporarily modify person-centered service plan development process and individual(s) responsible for person-centered service plan development, including qualifications.

[Describe any modifications including qualifications of individuals responsible for service plan development, and address Participant Safeguards. Also include strategies to ensure that services are received as authorized.]

h. ___ Temporarily modify incident reporting requirements, medication management or other participant safeguards to ensure individual health and welfare, and to account for emergency circumstances. [Explanation of changes]

i. ___ Temporarily allow for payment for services for the purpose of supporting waiver participants in an acute care hospital or short-term institutional stay when necessary supports (including communication and intensive personal care) are not available in that setting, or when the individual requires those services for communication and behavioral stabilization, and such services are not covered in such settings.

[Specify the services.]

j. ___ Temporarily include retainer payments to address emergency related issues.

[Describe the circumstances under which such payments are authorized and applicable limits on their duration. Retainer payments are available for habilitation and personal care only.]

k. ___ Temporarily institute or expand opportunities for self-direction.

[Provide an overview and any expansion of self-direction opportunities including a list of services that may be self-directed and an overview of participant safeguards.]

l. ___ Increase Factor C.

[Explain the reason for the increase and list the current approved Factor C as well as the proposed revised Factor C]

m. ___ Other Changes Necessary [For example, any changes to billing processes, use of contracted entities or any other changes needed by the State to address imminent needs of individuals in the waiver program]. [Explanation of changes]

ⁱ Numerous changes that the state may want to make may necessitate authority outside of the scope of section 1915(c) authority. States interested in changes to administrative claiming or changes that require section 1115 or section 1135 authority should engage CMS in a discussion as soon as possible. Some examples may include: (a) changes to administrative activities, such as the establishment of a hotline; or (b) suspension of general Medicaid rules that are not addressed under section 1915(c) such as payment rules or eligibility rules or suspension of provisions of section 1902(a) to which 1915(c) is typically bound.
