

# APPENDIX K: Emergency Preparedness and Response and COVID-19 Addendum

## Background:

This standalone appendix may be utilized by the state during emergency situations to request amendments to its approved waiver, to multiple approved waivers in the state, and/or to all approved waivers in the state. It includes actions that states can take under the existing Section 1915(c) home and community-based waiver authority in order to respond to an emergency. Other activities may require the use of various other authorities such as the Section 1115 demonstrations or the Section 1135 authorities.<sup>1</sup> This appendix may be applied retroactively as needed by the state. Public notice requirements normally applicable under 1915(c) do not apply to information contained in this Appendix.

E. **Brief Description of Emergency.** *In no more than one paragraph each*, briefly describe the: 1) nature of emergency; 2) number of individuals affected and the state's mechanism to identify individuals at risk; 3) roles of state, local and other entities involved in approved waiver operations; and 4) expected changes needed to service delivery methods, if applicable. The state should provide this information for each emergency checked if those emergencies affect different geographic areas and require different changes to the waiver.

COVID-19 pandemic. This amendment will apply waiver-wide for each waiver included in this Appendix, to all individuals impacted by the virus or the response to the virus (e.g. closure of day programs, etc.)

On March 11, 2020, the World Health Organization declared the rapidly spreading coronavirus (COVID-19) outbreak will likely spread to all countries around the globe. Earlier, on March 9, 2020, Ohio Governor Mike DeWine declared a statewide state of emergency to protect the health, safety and well-being of Ohioans from the dangerous effects of COVID-19. All citizens have been urged to heed the advice of the Ohio Department of Health (ODH) and other emergency officials regarding this public health emergency. State agencies, including those serving individuals through Ohio Medicaid, are authorized to coordinate the State response to COVID-19, and to develop and implement procedures, including suspending or adopting temporary rules within an agency's authority, consistent with recommendations from ODH designed to prevent or alleviate this public health threat. The Ohio Department of Medicaid (ODM) is submitting this Appendix K for the purpose of **establishing processes aimed at reducing risks and ensuring access to home and community-based services (HCBS) to individuals through the Individual Options (IO), Level One, and Self-Empowered Life Funding (SELF) Waivers who are at greatest risk from COVID-19.**

Current enrollment as of the submission of this Appendix K on each of the three waivers is as follows:

- IO: 23,791
- L1: 14,997
- SELF: 1,949

Slots for the respective waivers are as follows, as of the submission of this Appendix K:

- IO: 27,200 during Waiver Year 2
- L1: 19,200 during Waiver Year 5
- SELF: 2,200 during Waiver Year 1

All three intermediate care facility for individuals with intellectual and developmental disabilities (ICF/IID) level of care waivers service individuals ages birth and older. The State is assuming all enrolled individuals on the IO, L1, and SELF programs are currently at risk of contracting the infection which causes COVID-19.

The single State Medicaid Agency (ODM) assures compliance with this waiver by: delegating specific responsibilities to the Operating Agency the Department of Developmental Disabilities (DODD) through an interagency agreement; managing Medicaid provider agreements; establishing general Medicaid rules; approving the Operating Agency's program-specific rules related to Medicaid requirements; processing claims for federal reimbursement, conducting audits; conducting post-payment review of Medicaid claims; monitoring the compliance and effectiveness of the Operating Agency's operations; leading the development of quality improvement plans; and facilitating interagency data-sharing and collaboration.

The single State Medicaid Agency's (ODM) oversight of the Operating Agency's (DODD) performance occurs through a combination of reviews of performance data and management reports, interagency quality briefings, interagency quality forums, and fiscal reviews.

The state is seeking approval from CMS to make changes to the following areas under the Individual Options, Level One, and SELF waiver programs:

**Individual Options, Level One, and SELF Waivers**

No active provider rendering service during the established timeframe will be excluded from this one-time rate increase payment.
- The State utilized the period between March-July 2020 to develop the increased rate payment. Using this claims experience, the increased rate payment will be up to an additional 12% of the average for each individual provider for the abovementioned service types.
- The increased rate payment is based on claims available to the Department of Developmental Disabilities (DODD) on the date in which payment is made.
- This payment is made based on the approved rate methodology indicated in each 1915(c) waiver operated by DODD.

<sup>i</sup> Numerous changes that the state may want to make may necessitate authority outside of the scope of section 1915(c) authority. States interested in changes to administrative claiming or changes that require section 1115 or section 1135 authority should engage CMS in a discussion as soon as possible. Some examples may include: (a) changes to administrative activities, such as the establishment of a hotline; or (b) suspension of general Medicaid rules that are not addressed under section 1915(c) such as payment rules or eligibility rules or suspension of provisions of section 1902(a) to which 1915(c) is typically bound.
