

# APPENDIX K: Emergency Preparedness and Response and COVID-19 Addendum

## Background:

This standalone appendix may be utilized by the state during emergency situations to request amendments to its approved waiver, to multiple approved waivers in the state, and/or to all approved waivers in the state. It includes actions that states can take under the existing Section 1915(c) home and community-based waiver authority in order to respond to an emergency. Other activities may require the use of various other authorities such as the Section 1115 demonstrations or the Section 1135 authorities.<sup>i</sup> This appendix may be applied retroactively as needed by the state. Public notice requirements normally applicable under 1915(c) do not apply to information contained in this Appendix.

## **Supplemental Payments**

The below listed one-time supplemental payments will be made available for HCBS providers to support service recovery and expansion. Supplemental payments will be made as one-time payments to providers for the period of September 1, 2023, until the end of the Appendix K or 3/31/2025, whichever is sooner.

### ***(1) Community Participation Support Recovery Payments***

Tiered supplemental payments will be available based on provider recovery or expansion status as of June 2023 related to provision of Community Participation Support services in the following amounts:

- Providers exceeding pre-pandemic service capacity\* are eligible for payments of \$1,500 per individual receiving Community Participation Support services.
- Providers achieving 90-100% of pre-pandemic capacity are eligible for payments of \$1,000 per individual receiving Community Participation Support services.
- Providers achieving 75-89% of pre-pandemic capacity are eligible for payments of \$750 per individual receiving Community Participation Support services.

ODPs *expected maximum amount* represents a percentage of the aggregated and is 10% for Community Participation Supports. Individual payment amounts were determined by projecting the number of consumers expected to fall in the various incentive categories.

Provider recovery or expansion status is determined by comparing the provider's pre-pandemic number of program participants (discrete participants in service in January 2020) with the number of participants in service June 2023. The average units per participant must be maintained or increased from July 1, 2022 baseline.

### ***(2) Employment Services Recovery Payments***

- Providers exceeding pre-pandemic service capacity are eligible for payments of \$2,000 per individual receiving supported employment, benefits counseling, small group employment services.

ODPs *expected maximum amount* represents a percentage of the aggregated and is 30% for Employment Services. Individual payment amounts were determined by projecting the number of consumers expected to fall in the various incentive categories.

Program expansion status is determined by comparing the provider's pre-pandemic discrete number of participants in employment services July 1, 2019, through December 31, 2019, with discrete number of participants in employment services January 1, 2023, through June 30, 2023.

### ***(3) Supports Coordination Recovery Payments***

- Supports Coordination Organizations that increase number of individuals served between 1/1/2023-6/30/2023 are eligible for one-time payments of \$7,500 for each accepted referral of an individual with a new Targeted Services Management, or 1915(c) HCBS eligibility determination within the past 6 months.

ODPs *expected maximum amount* represents a percentage of the aggregated and is 10% for Supports Coordination Services. Individual payment amounts were determined by projecting the number of consumers expected to fall in the various incentive categories.

Program expansion status is determined by reviewing the number of participants served in December 2022 and comparing to participants served between January 1, 2023 and June 30, 2023.

#### **METHODOLOGY**

The methodology used for arriving at these proposed supplemental payments involved an analysis of utilization of the specific services pre-pandemic, trending of utilization throughout the pandemic, growth in enrolled individuals and projected utilization post-pandemic. The expected number of individuals utilizing the services was projected forward and payment amounts were determined specific to the services and available funding.

Providers are paid using a fee schedule rate for all services for which supplemental payments will be made. All supplemental payments will be retained by providers.

Supplemental payments will be funded through State general funds due to savings from the enhanced Federal funds available as per Pennsylvania's Spending Plan for Section 9817 of the American Rescue Plan Act of 2021.

*\* Capacity is measured by number of Consolidated, P/FDS or Community Living 1915(c) HCBS service participants, point in time.*

### **g. \_\_\_ Temporarily modify person-centered service plan development process and individual(s) responsible for person-centered service plan development, including qualifications.**

[Describe any modifications including qualifications of individuals responsible for service plan development, and address Participant Safeguards. Also include strategies to ensure that services are received as authorized.]

### **h. \_\_\_ Temporarily modify incident reporting requirements, medication management or other participant safeguards to ensure individual health and welfare, and to account for emergency circumstances. [Explanation of changes]**

**i. \_\_\_ Temporarily allow for payment for services for the purpose of supporting waiver participants in an acute care hospital or short-term institutional stay when necessary supports (including communication and intensive personal care) are not available in that setting, or when the individual requires those services for communication and behavioral stabilization, and such services are not covered in such settings.**

[Specify the services.]

**j. \_\_\_ Temporarily include retainer payments to address emergency related issues.**

[Describe the circumstances under which such payments are authorized and applicable limits on their duration. Retainer payments are available for habilitation and personal care only.]

**k. \_\_\_ Temporarily institute or expand opportunities for self-direction.**

[Provide an overview and any expansion of self-direction opportunities including a list of services that may be self-directed and an overview of participant safeguards.]

**l. \_\_\_ Increase Factor C.**

[Explain the reason for the increase and list the current approved Factor C as well as the proposed revised Factor C]

**m. \_\_\_ Other Changes Necessary [For example, any changes to billing processes, use of contracted entities or any other changes needed by the State to address imminent needs of individuals in the waiver program].** [Explanation of changes]
