

# APPENDIX K: Emergency Preparedness and Response and COVID-19 Addendum

**Background:**

This standalone appendix may be utilized by the state during emergency situations to request amendments to its approved waiver, to multiple approved waivers in the state, and/or to all approved waivers in the state. It includes actions that states can take under the existing Section 1915(c) home and community-based waiver authority in order to respond to an emergency. Other activities may require the use of various other authorities such as the Section 1115 demonstrations or the Section 1135 authorities.<sup>1</sup> This appendix may be applied retroactively as needed by the state. Public notice requirements normally applicable under 1915(c) do not apply to information contained in this Appendix.

## Appendix K-2: Temporary or Emergency-Specific Amendment to Approved Waiver

### Temporary or Emergency-Specific Amendment to Approved Waiver:

*These are changes that, while directly related to the state's response to an emergency situation, require amendment to the approved waiver document. These changes are time limited and tied specifically to individuals impacted by the emergency. Permanent or long-ranging changes will need to be incorporated into the main appendices of the waiver, via an amendment request in the waiver management system (WMS) upon advice from CMS.*

**a. \_\_\_ Access and Eligibility:**

**i. \_\_\_ Temporarily increase the cost limits for entry into the waiver.**

[Provide explanation of changes and specify the temporary cost limit.]

**ii. \_\_\_ Temporarily modify additional targeting criteria.**

[Explanation of changes]

b. x Services

i. \_\_\_ Temporarily modify service scope or coverage.

[Complete Section A- Services to be Added/Modified During an Emergency.]

ii. x Temporarily exceed service limitations (including limits on sets of services as described in Appendix C-4) or requirements for amount, duration, and prior authorization to address health and welfare issues presented by the emergency.

[Explanation of changes]

Respite

Respite limits may be extended beyond 30 days annually without requesting a variance in order to meet the immediate health and safety needs of participants.

The state has mechanisms in place to prevent duplicate billing for both institutional and HCB services when respite exceeds 30 days, specifically in institutional settings

iii. \_\_\_ Temporarily add services to the waiver to address the emergency situation (for example, emergency counseling; heightened case management to address emergency needs; emergency medical supplies and equipment; individually directed goods and services; ancillary services to establish temporary residences for dislocated waiver enrollees; necessary technology; emergency evacuation transportation outside of the scope of non-emergency transportation or transportation already provided through the waiver).

[Complete Section A-Services to be Added/Modified During an Emergency]

iv. x Temporarily expand setting(s) where services may be provided (e.g. hotels, shelters, schools, churches). Note for respite services only, the state should indicate any facility-based settings and indicate whether room and board is included:

[Explanation of modification, and advisement if room and board is included in the respite rate]:

1. Respite Care services
  - a. Respite care services may be provided in any setting necessary to ensure the health and safety of participants.
  - b. Room and board would be included in the fee schedule rate for facility-based settings used in response to the emergency.
2. Adult Day services
  - a. Adult day services may be provided in any setting necessary to ensure the health and safety of participants.

4. Assisted Living Services
  - a. Assisted Living services may be provided in any setting necessary to ensure the health and safety of participants.

**v. \_\_\_ Temporarily provide services in out of state settings (if not already permitted in the state's approved waiver).** [Explanation of changes]

**c. \_\_\_ Temporarily permit payment for services rendered by family caregivers or legally responsible individuals if not already permitted under the waiver.** Indicate the services to which this will apply and the safeguards to ensure that individuals receive necessary services as authorized in the plan of care, and the procedures that are used to ensure that payments are made for services rendered.

**d. \_\_\_ Temporarily modify provider qualifications (for example, expand provider pool, temporarily modify or suspend licensure and certification requirements).**

**i. x Temporarily modify provider qualifications.**

[Provide explanation of changes, list each service affected, list the provider type, and the changes in provider qualifications.]

For the duration of the Appendix K Waiver, the state is modifying provider standards for direct service workers and family members to qualify as a direct worker while his/her background check and pre-employment screenings are in pending status. This allowance will be applied to both traditional and participant-directed service (PDS) arrangements. Further, should a pending screening come back demonstrating concerns with the background check and/or pre-employment screening that would not allow the worker to continue employment long term that worker continues to be qualified until an alternative employee is identified unless the worker poses an immediate jeopardy to health, safety, and/or welfare of the participant (i.e. has tested positive for infectious disease) or is found to be guilty of past abuse, neglect, exploitation or violent felony and therefore is immediately unqualified.

Services impacted include homemaker, personal care, nursing, adult companion, respite, chore, structured family caregiving, community living, assisted living, and community transition services.

**f. \_\_\_ Temporarily increase payment rates.**

[Provide an explanation for the increase. List the provider types, rates by service, and specify whether this change is based on a rate development method that is different from the current approved waiver (and if different, specify and explain the rate development method). If the rate varies by provider, list the rate by service and by provider.]

**g. \_\_\_ Temporarily modify person-centered service plan development process and individual(s) responsible for person-centered service plan development, including qualifications.**

[Describe any modifications including qualifications of individuals responsible for service plan development, and address Participant Safeguards. Also include strategies to ensure that services are received as authorized.]

**h.   x   Temporarily modify incident reporting requirements, medication management or other participant safeguards to ensure individual health and welfare, and to account for emergency circumstances. [Explanation of changes]**

Incident Management Changes

- The requirement to conduct an investigation of any incident of deviation in staffing as outlined in an individual plan may be suspended.
- The requirement to submit an incident report for any deviation in staffing as outlined in an individual plan may be suspended. If this requirement is suspended, providers must report any incidents in which staffing shortages result in a failure to provide care.

**i. \_\_\_ Temporarily allow for payment for services for the purpose of supporting waiver participants in an acute care hospital or short-term institutional stay when necessary supports (including communication and intensive personal care) are not available in that setting, or when the individual requires those services for communication and behavioral stabilization, and such services are not covered in such settings.**

**j. \_\_\_ Temporarily include retainer payments to address emergency related issues.**

[Describe the circumstances under which such payments are authorized and applicable limits on their duration. Retainer payments are available for habilitation and personal care only.]

**k. \_\_\_ Temporarily institute or expand opportunities for self-direction.**

[Provide an overview and any expansion of self-direction opportunities including a list of services that may be self-directed and an overview of participant safeguards.]

**l. \_\_\_ Increase Factor C.**

[Explain the reason for the increase and list the current approved Factor C as well as the proposed revised Factor C]

**m.   x   Other Changes Necessary [For example, any changes to billing processes, use of contracted entities or any other changes needed by the State to address imminent needs of individuals in the waiver program]. [Explanation of changes]**

The state is modifying provider standards for direct service workers and family members to qualify as a direct worker while his/her background check and pre-employment screenings are in pending status. This allowance will be applied to both traditional and participant-directed service (PDS) arrangements. Further, should a pending screening come back demonstrating concerns with the background check and/or pre-employment screening that would not allow the worker to continue employment long term that worker continues to be qualified until an alternative employee is identified unless the worker poses an immediate jeopardy to health, safety, and/or welfare of the participant (i.e. has tested positive for infectious disease) or is found to be guilty of past abuse, neglect, exploitation or violent felony and therefore is immediately unqualified.

Requirement for services to be directed by a physician will be waived. This will prevent applicants and beneficiaries from entering a clinic or other medical facility unnecessarily. Service effected include:

1. Nursing
2. Nutritional Supplements

- a.  Current safeguards authorized in the approved waiver will apply to these entities.
- b.  Additional safeguards listed below will apply to these entities.

**4. Provider Qualifications**

- a.  Allow spouses and parents of minor children to provide personal care services
- b.  Allow a family member to be paid to render services to an individual.

<sup>i</sup> Numerous changes that the state may want to make may necessitate authority outside of the scope of section 1915(c) authority. States interested in changes to administrative claiming or changes that require section 1115 or section 1135 authority should engage CMS in a discussion as soon as possible. Some examples may include: (a) changes to administrative activities, such as the establishment of a hotline; or (b) suspension of general Medicaid rules that are not addressed under section 1915(c) such as payment rules or eligibility rules or suspension of provisions of section 1902(a) to which 1915(c) is typically bound.
