Background:

This standalone appendix may be utilized by the state during emergency situations to request amendments to its approved waiver, to multiple approved waivers in the state, and/or to all approved waivers in the state. It includes actions that states can take under the existing Section 1915(c) home and community-based waiver authority in order to respond to an emergency. Other activities may require the use of various other authorities such as the Section 1115 demonstrations or the Section 1135 authorities. This appendix may be applied retroactively as needed by the state. Public notice requirements normally applicable under 1915(c) do not apply to information contained in this Appendix.

Appendix K-2: Temporary or Emergency-Specific Amendment to ApprovedWaiver

Temporary or Emergency-Specific Amendment to Approved Waiver:
These are changes that, while directly related to the state’s response to an emergency situation, require amendment to the approved waiver document. These changes are time limited and tied specifically to individuals impacted by the emergency. Permanent or long-ranging changes will need to be incorporated into the main appendices of the waiver, via an amendment request in the waiver management system (WMS) upon advice from CMS.

a. Access and Eligibility:

i. Temporarily increase the cost limits for entry into the waiver.
[Provide explanation of changes and specify the temporary cost limit.]

ii. Temporarily modify additional targeting criteria.
b. ___ Services

i. ___ Temporarily modify service scope or coverage.  
[Complete Section A- Services to be Added/Modified During an Emergency.]

ii. ___ Temporarily exceed service limitations (including limits on sets of services as described in Appendix C-4) or requirements for amount, duration, and prior authorization to address health and welfare issues presented by the emergency.  
[Explanation of changes]

iii. ___ Temporarily add services to the waiver to address the emergency situation (for example, emergency counseling; heightened case management to address emergency needs; emergency medical supplies and equipment; individually directed goods and services; ancillary services to establish temporary residences for dislocated waiver enrollees; necessary technology; emergency evacuation transportation outside of the scope of non-emergency transportation or transportation already provided through the waiver).  
[Complete Section A-Services to be Added/Modified During an Emergency]

iv. ___ Temporarily expand setting(s) where services may be provided (e.g. hotels, shelters, schools, churches). Note for respite services only, the state should indicate any facility-based settings and indicate whether room and board is included:  
[Explanation of modification, and advisement if room and board is included in the respite rate]:

v. ___ Temporarily provide services in out of state settings (if not already permitted in the state’s approved waiver). [Explanation of changes]

---

c. ___ Temporarily permit payment for services rendered by family caregivers or legally responsible individuals if not already permitted under the waiver. d. **X** Temporarily modify provider qualifications (for example, expand provider pool, temporarily modify or suspend licensure and certification requirements).

i. **X** Temporarily modify provider qualifications.

[Provide explanation of changes, list each service affected, list the provider type, and the changes in provider qualifications.]

Allow for Personal Attendants to start providing services prior to results of background check returned. This change will affect personal attendant services and respite services within the ADLS Waiver. Failure to pass the required background check would result in termination. For the duration of the Appendix K Waiver, the state is modifying provider standards for personal attendants to qualify as a direct worker while his/her background check and pre-employment screenings are in pending status. This allowance will be applied to both traditional and participant-directed service (PDS) arrangements. Further, should a pending screening come back demonstrating concerns with the background check and/or pre-employment screening that would not allow the worker to continue employment long term that worker continues to be qualified until an alternative employee is identified unless the worker poses an immediate jeopardy to health, safety, and/or welfare of the participant (i.e. has tested positive for infectious disease) or is found to be guilty of past abuse, neglect, exploitation or violent felony and therefore is immediately unqualified.

ii. ___ Temporarily modify provider types.

[Provide explanation of changes, list each service affected, and the changes in the provider type for each service].

iii. **X** Temporarily modify licensure or other requirements for settings where waiver services are furnished.

A waiver of annual provider on-site reviews; To follow the 1135 request submitted by the State Medicaid Agency in regards to all provider enrollment requirements.

e. ___ Temporarily modify processes for level of care evaluations or re-evaluations (within regulatory requirements). [Describe]

f. ___ Temporarily increase payment rates.
[Provide an explanation for the increase. List the provider types, rates by service, and specify whether this change is based on a rate development method that is different from the current approved waiver (and if different, specify and explain the rate development method). If the rate varies by provider, list the rate by service and by provider.]

**g. X** Temporarily modify person-centered service plan development process and individual(s) responsible for person-centered service plan development, including qualifications.

[Describe any modifications including qualifications of individuals responsible for service plan development, and address Participant Safeguards. Also include strategies to ensure that services are received as authorized.]

<td>• If requested and/or necessary, modifications to a person-centered plan may be made, as driven by individualized participant need, circumstance and consent reviewed on an individualized basis, without the input of the entire person-centered service team. The state will ensure the person-centered service plan is modified to allow for additional supports and services to respond to the COVID-19 pandemic. The specificity of such services including amount, duration and scope will be appended as soon as possible to ensure that the specific service is delineated accordingly to the date it began to be received. The PCSP will be updated no later than 30 days from the date the service was initiated. Verbal approval or email approval of changes and additions to individual plans and services will suffice as authorization to begin services while awaiting the signed documents dated the date of the meeting to avoid delays that may occur due to staff working remotely. Authorizations may be entered at a later date and backdated.</td>

Numerous changes that the state may want to make may necessitate authority outside of the scope of section 1915(c) authority. States interested in changes to administrative claiming or changes that require section 1115 or section 1135 authority should engage CMS in a discussion as soon as possible. Some examples may include: (a) changes to administrative activities, such as the establishment of a hotline; or (b) suspension of general Medicaid rules that are not addressed under section 1915(c) such as payment rules or eligibility rules or suspension of provisions of section 1902(a) to which 1915(c) is typically bound.
