

APPENDIX K: Emergency Preparedness and Response

It includes actions that states can take under the existing Section 1915(c) home and community-based waiver authority in order to respond to an emergency. Other activities may require the use of various other authorities such as the Section 1115 demonstrations or the Section 1135 authorities.ⁱ This appendix may be completed retroactively as needed by the state.

When an individual's name is released from a waiver interest list, a face-to-face assessment must be conducted to determine the individual's eligibility for the waiver program. The state requests a waiver that will allow it to suspend releasing names from the waiver interest lists; the state will offer enrollment only to individuals who are requesting waiver services through the reserve capacity group of Promoting Independence/Money Follows the Person (on a case-by-case basis). This request will allow the state to significantly reduce the number of face-to-face assessments conducted during the COVID pandemic.

For CLASS, update Factor C to reflect 5568 and PIT numbers 5431 for waiver year one. The reduction in the Factor C numbers will not result in any currently enrolled waiver participants losing their eligibility.

ⁱ Numerous changes that the state may want to make necessitate authority outside of the scope of section 1915(c) authority. States interested in changes to administrative claiming or changes that require section 1115 or section 1135 authority should engage CMS in a discussion as soon as possible. Some examples may include: (a) changes to administrative activities, such as the establishment of a hotline; (b) suspension of general Medicaid rules that are not addressed under section 1915(c) such as payment rules or eligibility rules or suspension of provisions of section 1902(a) to which 1915(c) is typically bound.
