Disorders
Targeted Learning
Opportunities (TLO)

TLO 13: Developing Pay-for- Performance Initiatives

Logistics

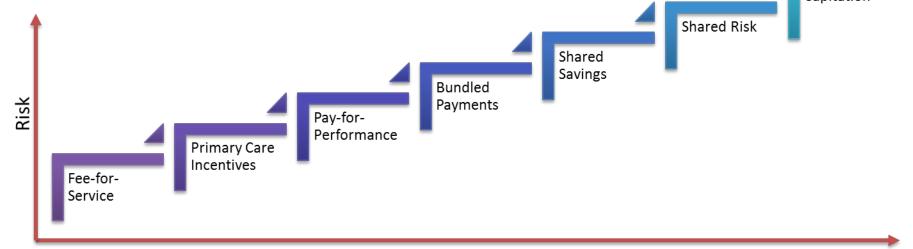

- Please mute your line and do not put the line on hold
- Use the chat box on your screen to ask a question or leave comment
 - Note: chat box will not be seen if you are in "full screen" mode
 - Please also exit out of "full screen" mode to participate in polling questions
- Moderated Q&A will be held periodically throughout the webinar
- Please complete the evaluation in the pop-up box after the webinar to help us continue to improve your experience

Purpose & Learning Objectives

- States will discuss pay-for-performance initiatives in relation to the continuum of value-based payments
- States will learn about opportunities available to states to improve care delivery and implement pay-forperformance strategies

Degree of Accountability & Integration

Speakers

- Dr. Dale Adair, MD FAPA
- Medical Director, Mental Health & Substance Abuse Services, Pennsylvania Department of Human Services

Speakers

- Tina Frontera, MHA
- Chief Operating Officer, Minnesota Community Measurement

Facilitator

- Cathy Fullerton, MD, MPH
- Senior Research Leader,
 Truven Health Analytics

Webinar Agenda

- State Experience: Pennsylvania's Integrated Care Management Program
 - Break for Discussion
- Health Care Quality Measurement and Pay-for-Performance in Minnesota
 - Break for Discussion
- Wrap Up & Sharing of Resources

State Experience: Pennsylvania's Integrated Care Management Program

Dale Adair, MD
Pennsylvania Department of Human Services

Pennsylvania's Integrated Care Program: Introduction

New value-based purchasing program for 2016

- Integrated Care:
- Focused on individuals with serious persistent mental illness (SPMI) & substance use disorder (SUD)
- Collaboration:
- Requires behavioral health/physical health managed care organizations collaborations
- Builds on Earlier Pilot:
- Three process activities & five performance measures

Pennsylvania's Integrated Care Program

- Baseline data for program was CY 2015 with measured incremental improvement in CY 2016
- Funding
 - \$10 million will be allocated in CY2016 for the integrated care program for the MCOs and BHOs
 - The funding will be allocated according to the overall percentage of HealthChoices member months for CY 2015

Why Focus on Integrated Care Management?

38.8% of all physical health index stays had a primary BH diagnosis within 1 year prior to index stay

- Index stays with prior BH diagnoses had a readmission rate 4 percentage points higher than index stays that did not
- Significant difference in readmission rates between members with a primary BH diagnosis and those who do not (p<0.001)
- Consumers with multiple chronic conditions, a BH condition &
 SUD have highest readmission rates

Why Focus on Integrated Care Management?

- Overall readmission rate is not improving
 - CY2013= 13.26%
 - All cause potentially preventable readmissions for physical health
- Suboptimal initiation & engagement of individuals in SUD treatment

	Ages 13-17	Ages 18+	All Ages
Initiation Rate	35.78%	30.60%	30.96%
Engagement Rate	24.88%	20.29%	20.61%

 Medication adherence for those living with schizophrenia is <70%

Program Overview

- Key process activities
 - Member stratification
 - Minimum of 500 joint behavioral health/ physical health integrated care plans
 - Hospital notification

- Operations 17 Report
 - Process activities must be documented to be eligible for incentive payments.
 - Will be audited to assure compliance
- Five performance measures will be eligible for incremental improvement based on payments

Performance Measures

I&E

- Initiation & engagement of alcohol and other drug dependence treatment
- Initiation rate
- Engagement rate
- Adherence
 - Adherence to antipsychotic medications for individuals with schizophrenia

- 30 Day Readmission
 - Combined behavioral health/physical health inpatient 30-day readmission rate for individuals with serious persistent mental illness (SPMI) *
- ED USE
 - Emergency department utilization for individuals with SPMI*
- Inpatient Use
 - Combined behavioral health/physical health inpatient utilization for individuals with SPMI* (*PA performance measure developed by IPRO)

Process Activities: Member Stratification

Member Stratification

- Baseline stratification means that all members are in the targeted
 SPMI population at the start of the program
- New members need an initial stratification level established within 60 days of the date of enrollment
- The physical health MCO or BH contractor/ MCO will report on the member ID, initial stratification level, and six month restratification level
- This is based on a percentage of membership for BH contractors/
 MCOs

Current		High BH Need	Low BH Need
member 🚽	High PH Need	4	3
stratification	Low PH Need	2	1
and the second second			1 1 1 1 1 1 1 1 1 1

Process Activities: Hospitalization Notification & Coordination

Shared Responsibility

- Each physical health MCO & BH
 MCO will jointly share responsibility for notification of a hospital admission
- Each coordinate discharge & followup
- Includes sharing discharge instructions, medications & recommended follow-up appointments to respective physical health/MCO, BH/MCO as appropriate per HIPAA & regulatory standards
- Notification to the partner MCO of hospital admissions within 1 business day

Attestation

- Each PH MCO will attest via the Operations 17 report that 90% of the admission notifications occurred within 1 business day of the PH MCO learning of the admission
- The PH MCO must maintain documentation to support the attestation of 90% admissions notification

Social Determinants

 The BH contractor/MCO completes the social determinants portion of the Integrated Care Plan report

Process Activities: Integrated Care Plan

Integrated Care Plan (ICP)

- Collection, integration &documentation of key physical & behavioral health information that is used to develop a joint care plan for purposes of care management
- At least 500 members must receive an ICP
- The ICP must be documented in the physical health MCO care management system
- Activity must be reported in the Operations 17 report
- The Operations Report 17 will be audited to verify the accuracy of the stratification, integrated care plan & hospital notification informationt

Incentive Payments

- \$20M allocated for the ICP Program in CY2016
 - Funding will be allocated to each contractor/MCO according to overall percent of HealthChoices member months for CY2015
- Measures
 - Each measure will be weighted equally & receive 20% of allocated funding
 - Each component of initiation & engagement will receive 10% of allocated funding
 - Measures will be calculated & validated by EQRO
- Payments will be based on incremental improvement calculated from 2015-2016

Incentive Payments:Payout Scale

Payment Scale for Measures 1-3				
Incremental Improvement (percentage point improvement)	Payout			
≥ 3	100%			
2.0 - 2.9	85%			
1 – 1.9	75%			
0.5 – 0.9	50%			

Payment Scale for Measures 4-5	
Reduction in events per 1,000 member months	Payout
3.0 or more	100%
2.0 – 2.9	75%

Challenges & Lessons Learned

- Pushback from health plans
- Collaborating & sharing information
- Acknowledging & accepting the initiative as an evolutionary process

Polling Question: Information Check-In

- Select the statements that <u>correctly</u> describe elements of pay-for-performance. Select all that apply.
 - Initiatives to improve quality of health care
 - Vague benchmarks
 - Initiatives to improve efficiency of health care
 - Process & outcomes measures
 - Penalties for poor outcomes
 - Provider incentives
 - Primary goal is reducing costs

Discussion and Questions (1 of 3)

Health Care Quality Measurement & Payfor-Performance in Minnesota

Tina Frontera, MHA Minnesota Community Measurement

Minnesota Community Measurement

- 501(c)3 multi-stakeholder neutral convener and measurement organization
- Mission and Vision
 - Accelerate improvement by publicly reporting health care information
 - Drive change through use of measures and data
- Currently Over 50 Measures Used
 - Health plans, government agencies, employers, health care industry, etc.
 - Contracting, pay-for-performance programs, performance improvement, transparency, compliance, network development, etc.

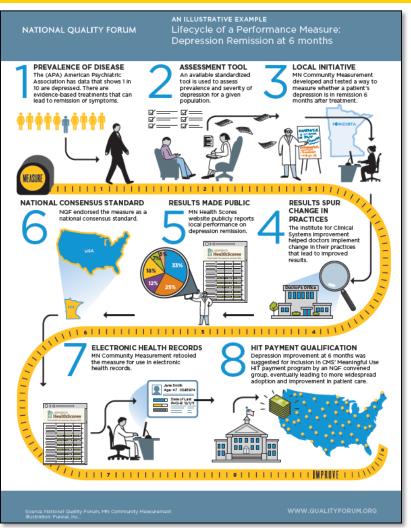

Depression Suite

- Utilization of the PHQ-9
- PHQ-9 Follow-Up at 6 months and at 12 months
- 6-month remission and 12-month remission
- 6-month response and 12-month response
- New 2015: Adolescent depression/mental health screening

Illustrated Example of the Lifecycle of a Measure

Courtesy of the National Quality Forum

- Depression remission at 6 months
 - Patient Reported Outcome
 Measures
 - Desired & Current Measure Gap
 - PHQ-9 is a Condition Specific
 PRO for Depression

Depression Remission at 6 Months

- Patients with diagnosed major depression or dysthymia
 AND elevated PHQ-9 > 9
- Prospective/ longitudinal, based on index visit
- PHQ-9 < 5 at six months +/- 30 days
- Response is > 50% improvement from initial score
- No follow-up = not in remission

Depression Remission at 6 Months Cont'd

2/1/2012	3/15/2012	4/10/2012	6/20/2012		7/15/2012		
Diag 296.23 Major							
depression, severe	PHQ-9 = 18	PHQ-9 = 12	PHQ-9 = 8		PHQ-9 = 3		
PHQ-9 = 21							
				7/2/2012		8/1/2012	8/31/2012
				minus 30		Six Month	plus 30
Index Visit				days	Remission	Marker	days
				\			

Various Pay-for-Performance Methods Across Payers in Minnesota

P4P Tools

- Transparency Tools
- Awards & Achievement Ceremonies
- Network Eligibility: narrow networks, health care homes
- Addition to Fee Schedule: per member, contract agreement %
- Withhold: retrospective reconciliation, future fee schedule

Transparency Spurs Improvement: 2012 Quality Report

Table 9: Statewide Rate for Depression Remission and Response at Six Months					
	Statewide Average	95% CI	Numerator (Patients who met treatment goals)	Denominator	
Depression Remission at Six Months	6.1%	5.9%-6.3%	4,498	73,530	
Depression Response at Six Months	10.5%	10.2%-10.7%	7,692	73,530

[◆] Remission PHQ-9 score < 5 at six months

[◇] Response PHQ-9 score decreased by 50% or more at six months

Example: Pay-for-Performance

- Among other P4P programs, the MN Quality Incentive Payment System (QIPS) is a statewide P4P system for physician clinics
- Three clinic measures include:
 - Optimal Diabetes Care
 - Optimal Vascular Care
 - Depression Remission at 6 Months

Example: Pay-for-Performance Cont'd

- In 2014, the State (MMB/DHS) reports payment of nearly \$500,000 in incentive payments to 259 clinics that reached absolute performance benchmarks or improvements in performance over time for these measures
- Absolute benchmark
 - \$100 per member
- Improvement Goal
 - \$50 per member
- Depression Remission at 6 months rewards for MHCP programs planned in 2015

Source: MN Department of Health, MN Statewide Quality Reporting and Measurement System: QIPS June 2015

Example: QIPS Rewards 2014

Table 1. QIPS Rewards, 2	2014						
Minnesota Management and Budget			Minnesota Department of Human Services				
Clinics	Members at	Rewards Paid	Clinics		Beneficiaries at	Rewards Paid	
Providing Care	Clinics		Providing Care		Clinics		
Optimal Diabetes Care							
 Absolute benchmark 	44	479	\$47,900	47	1,412	\$141,200	
 Improvement goal 	40	332	\$16,600	48	1,048	\$52,400	
Optimal Vascular Care							
 Absolute benchmark 	45	239	\$23,900	60	460	\$46,000	
 Improvement goal 	66	269	\$13,450	106	704	\$35,200	
Depression Remission at Six Months

Performance, Benchmarks & Goals

Absolute Performance and Improvement Thresholds, 2015

Optimal Diabetes Care

Absolute performance benchmark 65%

Improvement Target Goal 100%

Current Statewide average 54.8%

Current Performance Range 18.7-80.4%

Depression Remission at 6 Months (will risk adjust by severity of initial PHQ-9)

Absolute performance benchmark 14%

Improvement Target Goal 50%

Current Statewide average 7.8%

Current Performance Range 0.0-28.4%

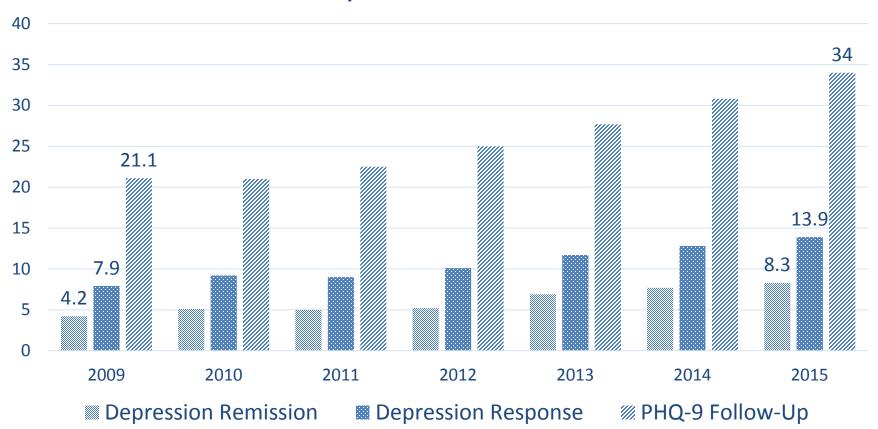

(Market-wide Data)

Depression Remission & Response at 6 Months

Depression Remission and Response at 6 Months Improvement Over Time

Polling Question (1 of 3)

- Has your state developed value-based purchasing arrangements around any of the following topics? Select all that apply.
 - Inpatient Services
 - Outpatient Services
 - Emergency Department Use
 - 30-Day Readmissions
 - Initiation & Engagement

Raise Your Hand

- Using the 'Raise your hand' option on ReadyTalk, please raise your hand if your state has
 - Implemented pay-for-performance or other value-based payment arrangements for SUD care
 OR
 - If your state has developed these initiatives for other health issues which may be used as models for alternative payment arrangements for SUDs care

Discussion and Questions (2 of 3)

Polling Question (2 of 3)

- Which challenges does your state face with regard to valuebased payment arrangements? Select all that apply.
 - Identifying leadership for reform
 - Evidence to support change
 - Identifying meaningful measures
 - Measure complexity
 - Identifying incentives
 - Lack of infrastructure/integration
 - Other

Discussion and Questions (3 of 3)

Polling Question (3 of 3)

- Would your state be interested in having a post-webinar discussion with the speakers to address any additional questions or reflections on today's webinar?
 - Yes
 - No
