

Measurement Period for Denominators and Numerators for the 2025 1945A Health Home Core Set Measures

Measure	2025 Measurement Period ^a		
	Denominator ^b	Numerator	Continuous Enrollment Period
CIS-HHA: Childhood Immunization Status	2nd birthday: January 1, 2024 – December 31, 2024	January 1, 2022 – December 31, 2024 (Birth through 2nd birthday) ^c	January 1, 2023 – December 31, 2024 ^d (12 months prior to 2nd birthday)
IMA-HHA Immunizations for Adolescents	13th birthday: January 1, 2024 – December 31, 2024	Meningococcal Rate: January 1, 2022 – December 31, 2024 (11th through 13th birthday) (or anaphylaxis due to the meningococcal vaccine before or on the 13th birthday) Tdap Rate: January 1, 2021 – December 31, 2024 (10th through 13th birthday) (or anaphylaxis or encephalitis due to the Tdap vaccine before or on the 13th birthday) HPV Rate: January 1, 2020 – December 31, 2024 (9th through 13th birthday) (or anaphylaxis due to the HPV vaccine before or on the 13th birthday)	January 1, 2023 – December 31, 2024 ^d (12 months prior to 13th birthday)
IU-HHA: Inpatient Utilization	January 1, 2024 – December 31, 2024	Inpatient discharge date: January 1, 2024 – December 31, 2024 Total days incurred: The sum of the length of stay for all discharges during a measurement year. Total days incurred includes days before January 1 of the measurement year for discharge dates occurring during the measurement year.	None
OEV-HHA: Oral Evaluation, Dental Services	January 1, 2024 – December 31, 2024	January 1, 2024 – December 31, 2024	January 1, 2024 – December 31, 2024 (180 days during measurement year)

W30-HHA: Well-Child Visits in the First 30 Months of Life	<p>Rate 1: Well-Child Visits in the First 15 Months 15th month birthday (90 days after child's first birthday): January 1, 2024 – December 31, 2024</p> <p>Rate 2: Well-Child Visits for Age 15 Months – 30 Months 30th month birthday (180 days after child's second birthday): January 1, 2024 – December 31, 2024</p>	<p>Rate 1: Well-Child Visits in the First 15 Months: October 1, 2022 – December 31, 2024 (Date of birth through 15th month birthday)</p> <p>Rate 2: Well-Child Visits for Age 15 Months – 30 Months: October 2, 2022 – December 31, 2024 (Day after the 15-month birthday through 30-month birthday)</p>	<p>Rate 1: Well-Child Visits in the First 15 Months: November 1, 2022 – December 31, 2024 (31 days – age 15 months)^d</p> <p>Rate 2: Well-Child Visits for Age 15 Months – 30 Months: October 2, 2022 – December 31, 2024 (15 months plus 1 day – age 30 months)^d</p>
WCV-HHA: Child and Adolescent Well-Care Visits	January 1, 2024 – December 31, 2024	January 1, 2024 – December 31, 2024	January 1, 2024 – December 31, 2024 ^d

^a For some measures, the measurement period for the numerator, denominator, or continuous enrollment period varies depending on a specified date for each enrollee (such as enrollee birthdates). For these measures, two ranges are shown. The first date range identifies the full range of possible dates that states will need to use to calculate the measure for all measure-eligible enrollees. The text in parentheses describes the measurement period that should be used for each eligible enrollee.

^b When reporting each measure to CMS, states should indicate whether they defined the measurement period according to Core Set specifications. For many measures, this date range corresponds to calendar year 2024 (January 1, 2024 – December 31, 2024). Some measures also require states to review utilization or enrollment prior to this period to identify the measure eligible population. For example, W30-HHA instructs states to identify enrollees who turn ages 15 months and 30 months during the measure year. However, states will also need to review the enrollee's well-child visit utilization from birth through 15 months and from 15 months through 30 months to calculate the respective rates. States that followed 2025 1945A Health Home Core Set specifications (that is, for the eligible population, calculated the numerator using the number of well visits from birth through 15 months and 15 months through 30 months) should select "Yes, our state adhered to Core Set specifications in defining the measurement period for calculating this measure." States that used a different date range, should answer "No" to this question and provide the Start Date and End Date they used to identify the Denominator (based on the first date range and not the look-back period). States should note any variations to any measurement period (numerator, denominator, continuous enrollment) in the "Variations from Measurement Specifications" section.

^c Some vaccinations (e.g., DTaP, HiB, IPV, Pneumococcal Conjugate, and Rotavirus) have specific timing requirements; refer to the technical specification for further detail.

^d No more than one gap in enrollment of up to 45 days during the continuous enrollment period.
