

Measurement Period for Denominators and Numerators for the FFY 2019 Health Home Core Set Measures

Measure	FFY 2019 Measurement Period ^a		
	Denominator ^b	Numerator	Continuous Enrollment Period
Core Set Measures			
ABA-HH: Adult Body Mass Index Assessment	January 1, 2017–December 31, 2018	January 1, 2017–December 31, 2018	Enrolled in a Medicaid Health Home January 1, 2017–December 31, 2018 ^c
CBP-HH: Controlling High Blood Pressure	January 1, 2017–December 31, 2018	January 1, 2018–December 31, 2018 ^d	Enrolled in a Medicaid Health Home January 1, 2018–December 31, 2018 ^e
CDF-HH: Screening for Depression and Follow-Up Plan	January 1, 2018–December 31, 2018	January 1, 2018–December 31, 2018	Enrolled in a Medicaid Health Home January 1, 2018–December 31, 2018 (At least 90 days)
FUH-HH: Follow-Up After Hospitalization for Mental Illness	Discharge date: January 1, 2018–December 1, 2018	7 Day Follow-up: January 2, 2018–December 8, 2018 (7 days after discharge date) 30 Day Follow-up: January 2, 2018–December 31, 2018 (30 days after discharge date)	Enrolled in a Medicaid Health Home January 1, 2018–December 31, 2018 (Discharge date through 30 days after discharge date)
IET-HH: Initiation and Engagement of Alcohol and Other Drug Dependence Treatment	Index episode start date (IESD): January 1, 2018–November 14, 2018 Negative diagnosis history review: November 2, 2017–September 15, 2018 (60 days prior to IESD)	Initiation of AOD Treatment: January 1, 2018–November 27, 2018 (Within 14 days following IESD) ^f Engagement of AOD Treatment: January 2, 2018–December 31, 2018 (Day after initiation encounter through 34 days after the initiation date) ^f	Enrolled in a Medicaid Health Home November 2, 2017–January 1, 2019 (60 days prior to IESD through 48 days after the IESD)
PCR-HH: Plan All-Cause Readmissions	Index hospital stay (IHS) discharge date: January 1, 2018–December 1, 2018	January 3, 2018–December 31, 2018 (2 days through 30 days following IHS discharge date)	Enrolled in a Medicaid Health Home January 1, 2017–December 31, 2018 (At least 365 days prior to IHS discharge date through 30 days after the IHS discharge date) ^g
PQI92-HH: Prevention Quality Indicator (PQI) 92: Chronic Conditions Composite	January 1, 2018–December 31, 2018	January 1, 2018–December 31, 2018	None

HEALTH HOME CORE SET MEASUREMENT PERIOD TABLE

Measure	FFY 2019 Measurement Period ^a		
	Denominator ^b	Numerator	Continuous Enrollment Period
Utilization Measures			
AIF-HH: Admission to an Institution from the Community	August 1, 2017–July 31, 2018	Institutional facility admission (IFA) date: August 1, 2017–July 31, 2018 Length of stay: August 1, 2017–December 31, 2018	Enrolled in a Medicaid Health Home August 1, 2017–July 31, 2018 (At least 30 days)
AMB-HH: Ambulatory Care: Emergency Department (ED) Visits	January 1, 2018–December 31, 2018	January 1, 2018–December 31, 2018	None
IU-HH: Inpatient Utilization	January 1, 2018–December 31, 2018	Inpatient discharge date: January 1, 2018–December 31, 2018 Total days: The sum of the length of stay for all discharges during the measurement year. Total days may include days incurred before January 1, 2018 provided the discharge date for the stay occurred during the measurement year.”	None

^a For some measures, the measurement period for the numerator, denominator, or continuous enrollment period varies depending on a specified date for each enrollee (such as enrollee birthdates, prescription or treatment start dates, and discharge dates). For these measures, two ranges are shown. The first date range identifies the full range of possible dates that states will need to use to calculate the measure for all measure-eligible enrollees. The text in parentheses describes the measurement period that should be used for each eligible enrollee.

^b When reporting each measure to CMS, states should report the measurement period they used for the denominator in the “Start Date” and “End Date” fields. For many measures, this date range corresponds to calendar year 2018 (January 1, 2018–December 31, 2018). Some measures also require states to review utilization or enrollment prior to this period to identify the measure eligible population. For these measures, two date ranges are included in this table. The first date range should be used to populate the Start Date and End Date fields, while the second date range defines these prior review periods and should not be included in the Start Date and End Date fields. For example, the IET-HH measure instructs states to identify enrollees with index episode start dates (IESD) that started January 1, 2018 through November 14, 2018 (the first date range). However, states will also need to review an enrollee’s diagnosis history for 60 days prior to the date of the IESD to confirm that the patient had no claims/encounters with a diagnosis of AOD dependence (the second date range). States that followed the 2018 Health Home Core Set specifications should enter “January 2018” in the Start Date field and “November 2018” in the End Date field. States should note any deviations to any measurement period (numerator, denominator, continuous enrollment) in the “Deviations from Measurement Specifications” section.

^c No more than one gap in enrollment of up to 45 days during each year of the continuous enrollment period.

^d Blood pressure reading must occur on or after the date of the diagnosis of hypertension.

^e No more than one gap in enrollment of up to 45 days during the continuous enrollment period.

^f Applies to all rates: Alcohol abuse or dependence rate, Opioid abuse or dependence rate, Other drug abuse or dependence rate, and Total AOD abuse or dependence rate.

^g No more than one gap in enrollment of up to 45 days during the 365 days prior to the index discharge date and no gap during the 30 days following the index discharge date.
