

Welcome to the Health Homes Quality Measure

CMS-10434 OMB 0938-1188

Federal Fiscal Year *

2013 ▼

[Request Technical Assistance](#)

[View Implementation Guide](#)

The Health Homes provision, authorized by section 2703 of the Affordable Care Act (section 1945 of the Social Security Act), provides an opportunity to build a person-centered care delivery model that focuses on improving outcomes and disease management for beneficiaries with chronic conditions. The Health Homes core set of quality measures will be used to evaluate care across all state Health Homes programs. Specifically, section 2703 requires Health Homes providers to report health care quality measures in order to receive payment. The recommended Health Homes core set will require reporting at the Health Homes provider level which the state will collect and aggregate at the Health Homes program level.

PRA Disclosure Statement According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1188. The time required to complete this information collection is estimated to average 40 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

End Date

February ▼	2014 ▼
Month	Year

Definition of Population Included in the Measure

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

Health Home enrollees for whom BMI was documented (Table ABA.B) during the measurement year or the year prior to the measurement year.

*States that report using a one-year look-back period should include only BMI during the measurement year.

Deviations from Measure Specifications

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes
- No

Performance Measure

The percentage of Medicaid enrollees ages 18 to 74 who had an outpatient visit and whose body mass index (BMI) was documented during the measurement year or the year prior to the measurement year.

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population

Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

Yes
 No

Definition of Numerator

The total number of emergency department visits for Health Home enrollees that Medicaid (or Medicare for Dual Eligible beneficiaries) paid for, or expects to pay for, during the measurement year.

Each visit that does not result in an inpatient stay is counted once, regardless of the intensity of duration of the visit. Emergency department visits that result in an inpatient stay are not included.

- Yes
- No

Measurement Specification

+/-

- NCQA: National Committee for Quality Assurance
- Other

Explain *

Data Source

+/-

- Administrative Data Only

From where is the Administrative Data coming?

Must select one or more

- Medicaid Management Information System (MMIS)
- Other

*Specify

Character count: 0/2000

- Other

Date Range

+/-

Please define the date range for the reporting period based on the "From" time period as the month and year that corresponds to the beginning period in which utilization took place and please report the "To" time period as the month and year that corresponds to the end period in which utilization took place. Do not report the year in which data were collected from the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to the utilization of services.

Start Date

Month Year

End Date

Month Year

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

The total number of emergency department visits for Health Home enrollees that Medicaid (or Medicare for Dual Eligible beneficiaries) paid for, or expects to pay for, during the measurement year.

Each visit that does not result in an inpatient stay is counted once, regardless of the intensity of duration of the visit. Emergency department visits that result in an inpatient stay are not included.

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes
- No

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

The number of Health Home enrollees in the denominator whose most recent BP is adequately controlled during the measurement year. For an enrollee's BP to be controlled, both the systolic and diastolic BP must be <140/90 (adequate control). To determine if an enrollee's BP is adequately controlled, the representative BP must be identified.

Deviations from Measure Specifications

Performance Measure

[+/-](#)

The percentage of Health Home enrollees ages 18 to 85 who had a diagnosis of hypertension (HTN) and whose blood pressure (BP) was adequately controlled (<140/90) during the measurement year.

Age Range: 18-64

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 65-85

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

The option "Denominator includes Medicare and Medicaid Dually-Eligible population" was selected in the "Definition of Population included in the Measure" section; however, no data were reported for the population age 65 and older. Are data available for population age 65 and over? *

- Yes
- No

Please either:

1. enter a N/D/R for this age group,
2. return to the "Definition of Population Included in the Measure" section and de-select the option "Denominator includes Medicare and Medicaid Dually-Eligible population", or
3. explain below why data were not reported for age 65 and older (for example if the 65 and older group were combined with the 18-64 age group).

"Denominator includes Medicare and Medicaid Dually-Eligible population" was selected, but a numerator, denominator, and rate were not reported for the 65 and older population. Please explain why *

Age Range: Total

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

The number of Health Home enrollees in the denominator whose most recent BP is adequately controlled during the measurement year. For an enrollee's BP to be controlled, both the systolic and diastolic BP must be <140/90 (adequate control). To determine if an enrollee's BP is adequately controlled, the representative BP must be identified.

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes
- No

Performance Measure

+/-

The percentage of Health Home enrollees ages 18 to 85 who had a diagnosis of hypertension (HTN) and whose blood pressure (BP) was adequately controlled (<140/90) during the measurement year.

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Explain which populations are excluded and why *

What is the sample size? *

What is the measure-eligible population? *

Definition of Numerator

The number of Health Home enrollees in the denominator whose most recent BP is adequately controlled during the measurement year. For an enrollee's BP to be controlled, both the systolic and diastolic BP must be <140/90 (adequate control). To determine if an enrollee's BP is adequately controlled, the representative BP must be identified.

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes
- No

Other Performance Measure

+/-

Please describe the other methodology used *

Please describe the rate (e.g., 18-64)	Numerator	Denominator	Rate

[Empty text box for measure-eligible population]

Definition of Numerator

Patients screened for clinical depression on the date of the encounter using an age-appropriate standardized tool and, if positive, a follow-up plan is documented on the date of the positive screen.

- G8431: Positive screen for clinical depression with a documented follow-up plan* OR
- G8510: Negative screen for clinical depression, follow-up not required.*

*Reporting this code meets numerator criteria when calculating performance.

Would you like to validate the core measure data at this time?

Yes No

(Note: While the measure does not need to be validated at this time in order to proceed, each measure must be validated for the measure to be marked as 'complete' and before the report can be submitted to CMS).

Note: If validation fails, errors will appear in red above.

Screening for Clinical Depression and Follow-Up Plan (CDF)

Health Homes Quality Measure - OR - 2013

Request Technical Assistance Clear View All Responses

Date Range

+/-

Please define the date range for the reporting period based on the "From" time period as the month and year that corresponds to the beginning period in which utilization took place and please report the "To" time period as the month and year that corresponds to the end period in which utilization took place. Do not report the year in which data were collected from the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to the utilization of services.

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

Patients screened for clinical depression on the date of the encounter using an age-appropriate standardized tool and, if positive, a follow-up plan is documented on the date of the positive screen.

- G8431: Positive screen for clinical depression with a documented follow-up plan* OR
- G8510: Negative screen for clinical depression, follow-up not required.*

*Reporting this code meets numerator criteria when calculating performance.

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes
- No

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

Patients screened for clinical depression on the date of the encounter using an age-appropriate standardized tool and, if positive, a follow-up plan is documented on the date of the positive screen.

- G8431: Positive screen for clinical depression with a documented follow-up plan* OR
- G8510: Negative screen for clinical depression, follow-up not required.*

*Reporting this code meets numerator criteria when calculating performance.

Deviations from Measure Specifications

Performance Measure

+/-

The percentage of Health Home enrollees age 12 and older who were screened for clinical depression using a standardized depression screening tool and, if positive, a follow-up plan is documented on the date of the positive screen.

Age Range: 12-17

Numerator	Denominator	Rate
0	0	0

Age Range: 18-64

Numerator	Denominator	Rate
0	0	0

Age Range: 65 and older

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

The option "Denominator includes Medicare and Medicaid Dually-Eligible population" was selected in the "Definition of Population included in the Measure" section; however, no data were reported for the population age 65 and older. Are data available for population age 65 and over? *

- Yes
- No

Please either:

1. enter a N/D/R for this age group,
2. return to the "Definition of Population Included in the Measure" section and de-select the option "Denominator includes Medicare and Medicaid Dually-Eligible population", or
3. explain below why data were not reported for age 65 and older (for example if the 65 and older group were combined with the 18-64 age group).

"Denominator includes Medicare and Medicaid Dually-Eligible population" was selected, but a numerator, denominator, and rate were not reported for the 65 and older population. Please explain why *

Would you like to validate the core measure data at this time?

Yes No

(Note: While the measure does not need to be validated at this time in order to proceed, each measure must be validated for the measure to be marked as 'complete' and before the report can be submitted to CMS).

Note: If validation fails, errors will appear in red above.

Screening for Clinical Depression and Follow-Up Plan (CDF)

Health Homes Quality Measure - OR - 2013

Character count: 0/2000

Date Range

+/-

Please define the date range for the reporting period based on the "From" time period as the month and year that corresponds to the beginning period in which utilization took place and please report the "To" time period as the month and year that corresponds to the end period in which utilization took place. Do not report the year in which data were collected from the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to the utilization of services.

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Explain which populations are excluded and why *

What is the sample size? *

What is the measure-eligible population? *

Definition of Numerator

Patients screened for clinical depression on the date of the encounter using an age-appropriate standardized tool and, if positive, a follow-up plan is documented on the date of the positive screen.

- G8431: Positive screen for clinical depression with a documented follow-up plan* OR
- G8510: Negative screen for clinical depression, follow-up not required.*

*Reporting this code meets numerator criteria when calculating performance.

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes

Performance Measure

+/-

The percentage of Health Home enrollees age 12 and older who were screened for clinical depression using a standardized depression screening tool and, if positive, a follow-up plan is documented on the date of the positive screen.

Age Range: 12-17

Numerator	Denominator	Rate
0	0	0

Age Range: 18-64

Numerator	Denominator	Rate
0	0	0

Age Range: 65 and older

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

The option "Denominator includes Medicare and Medicaid Dually-Eligible population" was selected in the "Definition of Population included in the Measure" section; however, no data were reported for the population age 65 and older. Are data available for population age 65 and over? *

- Yes
- No

If applicable, please return to the "Definition of Population Included in the Measure" section and de-select the option "Denominator includes Medicare and Medicaid Dually-Eligible population" or provide explanation below.

"Denominator includes Medicare and Medicaid Dually-Eligible population" was not de-selected, please explain why *

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Explain which populations are excluded and why *

What is the sample size? *

What is the measure-eligible population? *

Definition of Numerator

Patients screened for clinical depression on the date of the encounter using an age-appropriate standardized tool and, if positive, a follow-up plan is documented on the date of the positive screen.

- G8431: Positive screen for clinical depression with a documented follow-up plan* OR
- G8510: Negative screen for clinical depression, follow-up not required.*

*Reporting this code meets numerator criteria when calculating performance.

Deviations from Measure Specifications

Please define the date range for the reporting period based on the "From" time period as the month and year that corresponds to the beginning period in which utilization took place and please report the "To" time period as the month and year that corresponds to the end period in which utilization took place. Do not report the year in which data were collected from the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to the utilization of services.

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Explain which populations are excluded and why *

What is the sample size? *

What is the measure-eligible population? *

Definition of Numerator

Patients screened for clinical depression on the date of the encounter using an age-appropriate standardized tool and, if positive, a follow-up plan is documented on the date of the positive screen.

- G8431: Positive screen for clinical depression with a documented follow-up plan* OR
- G8510: Negative screen for clinical depression, follow-up not required.*

*Reporting this code meets numerator criteria when calculating performance.

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes
- No

Please select and explain the deviation(s)

Age Range: 12-17

Performance Measure

+/-

The percentage of Health Home enrollees age 12 and older who were screened for clinical depression using a standardized depression screening tool and, if positive, a follow-up plan is documented on the date of the positive screen.

Age Range: 12-17

Numerator	Denominator	Rate
0	0	0

Age Range: 18-64

Numerator	Denominator	Rate
0	0	0

Age Range: 65 and older

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

The option "Denominator includes Medicare and Medicaid Dually-Eligible population" was selected in the "Definition of Population included in the Measure" section; however, no data were reported for the population age 65 and older. Are data available for population age 65 and over? *

- Yes
- No

If applicable, please return to the "Definition of Population Included in the Measure" section and de-select the option "Denominator includes Medicare and Medicaid Dually-Eligible population" or provide explanation below.

"Denominator includes Medicare and Medicaid Dually-Eligible population" was not de-selected, please explain why *

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

Enrollees for whom a transition record was transmitted to the facility or primary physician or other health care professional designated for follow-up care within 24 hours of discharge.

Medical record review is required to collect the numerator data elements. (Note: If a given element does not apply to the enrollee, the transition record should include documentation stating the element is not applicable, e.g., no pending studies at discharge).

The transition record must include the data elements specified in the Retrospective Data Collection Flowsheet (Figure CTR.A).

Deviations from Measure Specifications

Performance Measure

The percentage of Health Home enrollees of all ages discharged from an inpatient facility (e.g., hospital inpatient or observation, skilled nursing facility, or rehabilitation facility) to home or any other site of care for whom a transition record was transmitted to the facility, Health Home provider or primary physician or other health care professional designated for follow-up care, within 24 hours of discharge.

Age Range: 0-17

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 18-64

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 65 and older

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

The option "Denominator includes Medicare and Medicaid Dually-Eligible population" was selected in the "Definition of Population included in the Measure" section; however, no data were reported for the population age 65 and older. Are data available for population age 65 and over? *

- Yes
- No

Please either:

1. enter a N/D/R for this age group,
2. return to the "Definition of Population Included in the Measure" section and de-select the option "Denominator includes Medicare and Medicaid Dually-Eligible population", or
3. explain below why data were not reported for age 65 and older (for example if the 65 and older group were combined with the 18-64 age group).

"Denominator includes Medicare and Medicaid Dually-Eligible population" was selected, but a numerator, denominator, and rate were not reported for the 65 and older population. Please explain why *

Age Range: Total

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Description

No file chosen

Would you like to validate the core measure data at this time?

Yes No

(Note: While the measure does not need to be validated at this time in order to proceed, each measure must be validated for the measure to be marked as 'complete' and before the report can be submitted to CMS).

Note: If validation fails, errors will appear in red above.

Care Transition - Timely Transmission of Transition Record (CTR)

Health Homes Quality Measure - OR - 2013

Date Range

+/-

Please define the date range for the reporting period based on the "From" time period as the month and year that corresponds to the beginning period in which utilization took place and please report the "To" time period as the month and year that corresponds to the end period in which utilization took place. Do not report the year in which data were collected from the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to the utilization of services.

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

Enrollees for whom a transition record was transmitted to the facility or primary physician or other health care professional designated for follow-up care within 24 hours of discharge.

Medical record review is required to collect the numerator data elements. (Note: If a given element does not apply to the enrollee, the transition record should include documentation stating the element is not applicable, e.g., no pending studies at discharge).

The transition record must include the data elements specified in the Retrospective Data Collection Flowsheet (Figure CTR.A).

Deviations from Measure Specifications

Performance Measure

The percentage of Health Home enrollees of all ages discharged from an inpatient facility (e.g., hospital inpatient or observation, skilled nursing facility, or rehabilitation facility) to home or any other site of care for whom a transition record was transmitted to the facility, Health Home provider or primary physician or other health care professional designated for follow-up care, within 24 hours of discharge.

Age Range: 0-17

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 18-64

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 65 and older

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

The option "Denominator includes Medicare and Medicaid Dually-Eligible population" was selected in the "Definition of Population included in the Measure" section; however, no data were reported for the population age 65 and older. Are data available for population age 65 and over? *

- Yes
- No

If applicable, please return to the "Definition of Population Included in the Measure" section and de-select the option "Denominator includes Medicare and Medicaid Dually-Eligible population" or provide explanation below.

"Denominator includes Medicare and Medicaid Dually-Eligible population" was not de-selected, please explain why *

Age Range: Total

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Additional Notes/Comments on Measure

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

Enrollees for whom a transition record was transmitted to the facility or primary physician or other health care professional designated for follow-up care within 24 hours of discharge.

Medical record review is required to collect the numerator data elements. (Note: If a given element does not apply to the enrollee, the transition record should include documentation stating the element is not applicable, e.g., no pending studies at discharge).

The transition record must include the data elements specified in the Retrospective Data Collection Flowsheet (Figure CTR.A).

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes
- No

Performance Measure

+/-

The percentage of Health Home enrollees of all ages discharged from an inpatient facility (e.g., hospital inpatient or observation, skilled nursing facility, or rehabilitation facility) to home or any other site of care for whom a transition record was transmitted to the facility, Health Home provider or primary physician or other health care professional designated for follow-up care, within 24 hours of discharge.

Would you like to validate the core measure data at this time?

Yes No

(Note: While the measure does not need to be validated at this time in order to proceed, each measure must be validated for the measure to be marked as 'complete' and before the report can be submitted to CMS).

Note: If validation fails, errors will appear in red above.

Care Transition - Timely Transmission of Transition Record (CTR)

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Explain which populations are excluded and why *

What is the sample size? *

What is the measure-eligible population? *

Definition of Numerator

Enrollees for whom a transition record was transmitted to the facility or primary physician or other health care professional designated for follow-up care within 24 hours of discharge.

Medical record review is required to collect the numerator data elements. (Note: If a given element does not apply to the enrollee, the transition record should include documentation stating the element is not applicable, e.g., no pending studies at discharge).

The transition record must include the data elements specified in the Retrospective Data Collection Flowsheet (Figure CTR.A).

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes
- No

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

30-Day Follow-Up:

An outpatient visit, intensive outpatient encounter, or partial hospitalization (Table FUH.D) with a mental health practitioner within 30 days after discharge. Include outpatient visits, intensive outpatient encounters or partial hospitalizations that occur on the date of discharge.

7-Day Follow-Up:

An outpatient visit, intensive outpatient encounter, or partial hospitalization (Table FUH.D) with a mental health practitioner within 7 days after discharge. Include outpatient visits, intensive outpatient encounters or partial hospitalizations that occur on the date of discharge.

Deviations from Measure Specifications

Performance Measure

+/-

The percentage of discharges for Health Home enrollees age 6 and older who were hospitalized for treatment of selected mental health disorders and who had an outpatient visit, an intensive outpatient encounter, or partial hospitalization with a mental health practitioner. Two rates are reported:

- The percentage of discharges for which the patient received follow-up within 7 days of discharge.
- The percentage of discharges for which the patient received follow-up within 30 days of discharge.

Follow-Up within 30 days of discharge

Age Range: 6-17

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 18-64

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 65 and older

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

The option "Denominator includes Medicare and Medicaid Dually-Eligible population" was selected in the "Definition of Population included in the Measure" section; however, no data were reported for the population age 65 and older. Are data available for population age 65 and over? *

- Yes
- No

Please either:

1. enter a N/D/R for this age group,
2. return to the "Definition of Population Included in the Measure" section and de-select the option "Denominator includes Medicare and Medicaid Dually-Eligible population", or
3. explain below why data were not reported for age 65 and older (for example if the 65 and older group were combined with the 18-64 age

group).

"Denominator includes Medicare and Medicaid Dually-Eligible population" was selected, but a numerator, denominator, and rate were not reported for the 65 and older population. Please explain why *

Age Range: Total

Please explain why data was not entered for this numerator/denominator/rate set *

Would you like to validate the core measure data at this time?

Yes No

(Note: While the measure does not need to be validated at this time in order to proceed, each measure must be validated for the measure to be marked as 'complete' and before the report can be submitted to CMS).

Note: If validation fails, errors will appear in red above.

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

30-Day Follow-Up:

An outpatient visit, intensive outpatient encounter, or partial hospitalization (Table FUH.D) with a mental health practitioner within 30 days after discharge. Include outpatient visits, intensive outpatient encounters or partial hospitalizations that occur on the date of discharge.

7-Day Follow-Up:

An outpatient visit, intensive outpatient encounter, or partial hospitalization (Table FUH.D) with a mental health practitioner within 7 days after discharge. Include outpatient visits, intensive outpatient encounters or partial hospitalizations that occur on the date of discharge.

Performance Measure

+/-

The percentage of discharges for Health Home enrollees age 6 and older who were hospitalized for treatment of selected mental health disorders and who had an outpatient visit, an intensive outpatient encounter, or partial hospitalization with a mental health practitioner. Two rates are reported:

- The percentage of discharges for which the patient received follow-up within 7 days of discharge.
- The percentage of discharges for which the patient received follow-up within 30 days of discharge.

Follow-Up within 30 days of discharge

Age Range: 6-17

Please explain why data was not entered for this numerator/denominator/rate set *

Would you like to validate the core measure data at this time?

Yes No

(Note: While the measure does not need to be validated at this time in order to proceed, each measure must be validated for the measure to be marked as 'complete' and before the report can be submitted to CMS).

Note: If validation fails, errors will appear in red above.

HEDIS: Healthcare Effectiveness Data and Information Set

Data Source

+/-

Administrative Data Only

From where is the Administrative Data coming?

Must select one or more

- Medicaid Management Information System (MMIS)
- Other

*Specify

Character count: 0/2000

Other

Specify *

Character count: 0/2000

Date Range

+/-

Please define the date range for the reporting period based on the "From" time period as the month and year that corresponds to the beginning period in which utilization took place and please report the "To" time period as the month and year that corresponds to the end period in which utilization took place. Do not report the year in which data were collected from the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to the utilization of services.

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

30-Day Follow-Up:

An outpatient visit, intensive outpatient encounter, or partial hospitalization (Table FUH.D) with a mental health practitioner within 30 days after discharge. Include outpatient visits, intensive outpatient encounters or partial hospitalizations that occur on the date of discharge.

7-Day Follow-Up:

An outpatient visit, intensive outpatient encounter, or partial hospitalization (Table FUH.D) with a mental health practitioner within 7 days after discharge. Include outpatient visits, intensive outpatient encounters or partial hospitalizations that occur on the date of discharge.

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

Performance Measure

+/-

The percentage of discharges for Health Home enrollees age 6 and older who were hospitalized for treatment of selected mental health disorders and who had an outpatient visit, an intensive outpatient encounter, or partial hospitalization with a mental health practitioner. Two rates are reported:

- The percentage of discharges for which the patient received follow-up within 7 days of discharge.
- The percentage of discharges for which the patient received follow-up within 30 days of discharge.

Follow-Up within 30 days of discharge

Age Range: 6-17

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 18-64

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 65 and older

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

The option "Denominator includes Medicare and Medicaid Dually-Eligible population" was selected in the "Definition of Population included in the Measure" section; however, no data were reported for the population age 65 and older. Are data available for population age 65 and over? *

- Yes
 No

Please either:

1. enter a N/D/R for this age group,
2. return to the "Definition of Population Included in the Measure" section and de-select the option "Denominator includes Medicare and Medicaid Dually-Eligible population", or
3. explain below why data were not reported for age 65 and older (for example if the 65 and older group were combined with the 18-64 age

group).

"Denominator includes Medicare and Medicaid Dually-Eligible population" was selected, but a numerator, denominator, and rate were not reported for the 65 and older population. Please explain why *

Age Range: Total

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Follow-Up within 7 days of discharge

Age Range: 6-17

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 18-64

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 65 and older

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

The option "Denominator includes Medicare and Medicaid Dually-Eligible population" was selected in the "Definition of Population included in the Measure" section; however, no data were reported for the population age 65 and older. Are data available for population age 65 and over? *

- Yes
- No

If applicable, please return to the "Definition of Population Included in the Measure" section and de-select the option "Denominator includes Medicare and Medicaid Dually-Eligible population" or provide explanation below.

"Denominator includes Medicare and Medicaid Dually-Eligible population" was not de-selected, please explain why *

Age Range: Total

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Additional Notes/Comments on Measure

Character count: 0/2000

Optional Measure Stratification

+/-

If this measure is also reported by additional classifications/sub-categories, e.g. racial, ethnic, gender, language, disability status, or geography, complete the following as applicable.

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

30-Day Follow-Up:

An outpatient visit, intensive outpatient encounter, or partial hospitalization (Table FUH.D) with a mental health practitioner within 30 days after discharge. Include outpatient visits, intensive outpatient encounters or partial hospitalizations that occur on the date of discharge.

7-Day Follow-Up:

An outpatient visit, intensive outpatient encounter, or partial hospitalization (Table FUH.D) with a mental health practitioner within 7 days after discharge. Include outpatient visits, intensive outpatient encounters or partial hospitalizations that occur on the date of discharge.

Deviations from Measure Specifications

Performance Measure

+/-

The percentage of discharges for Health Home enrollees age 6 and older who were hospitalized for treatment of selected mental health disorders and who had an outpatient visit, an intensive outpatient encounter, or partial hospitalization with a mental health practitioner. Two rates are reported:

- The percentage of discharges for which the patient received follow-up within 7 days of discharge.
- The percentage of discharges for which the patient received follow-up within 30 days of discharge.

Follow-Up within 30 days of discharge

Age Range: 6-17

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 18-64

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 65 and older

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

The option "Denominator includes Medicare and Medicaid Dually-Eligible population" was selected in the "Definition of Population included in the Measure" section; however, no data were reported for the population age 65 and older. Are data available for population age 65 and over? *

- Yes
- No

Please either:

1. enter a N/D/R for this age group,
2. return to the "Definition of Population Included in the Measure" section and de-select the option "Denominator includes Medicare and Medicaid Dually-Eligible population", or
3. explain below why data were not reported for age 65 and older (for example if the 65 and older group were combined with the 18-64 age

group).

"Denominator includes Medicare and Medicaid Dually-Eligible population" was selected, but a numerator, denominator, and rate were not reported for the 65 and older population. Please explain why *

Would you like to validate the core measure data at this time?

Yes No

(Note: While the measure does not need to be validated at this time in order to proceed, each measure must be validated for the measure to be marked as 'complete' and before the report can be submitted to CMS).

Note: If validation fails, errors will appear in red above.

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

30-Day Follow-Up:

An outpatient visit, intensive outpatient encounter, or partial hospitalization (Table FUH.D) with a mental health practitioner within 30 days after discharge. Include outpatient visits, intensive outpatient encounters or partial hospitalizations that occur on the date of discharge.

7-Day Follow-Up:

An outpatient visit, intensive outpatient encounter, or partial hospitalization (Table FUH.D) with a mental health practitioner within 7 days after discharge. Include outpatient visits, intensive outpatient encounters or partial hospitalizations that occur on the date of discharge.

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes
- No

Performance Measure

+/-

The percentage of discharges for Health Home enrollees age 6 and older who were hospitalized for treatment of selected mental health disorders and who had an outpatient visit, an intensive outpatient encounter, or partial hospitalization with a mental health practitioner. Two rates are reported:

- The percentage of discharges for which the patient received follow-up within 7 days of discharge.
- The percentage of discharges for which the patient received follow-up within 30 days of discharge.

Follow-Up within 30 days of discharge

Description

No file chosen

Would you like to validate the core measure data at this time?

Yes No

(Note: While the measure does not need to be validated at this time in order to proceed, each measure must be validated for the measure to be marked as 'complete' and before the report can be submitted to CMS).

Note: If validation fails, errors will appear in red above.

Follow-Up After Hospitalization for Mental Illness (FUH)

Health Homes Quality Measure - OR - 2013

HEDIS: Healthcare Effectiveness Data and Information Set

Data Source

+/-

Administrative Data Only

From where is the Administrative Data coming?

Must select one or more

- Medicaid Management Information System (MMIS)
- Other

*Specify

Character count: 0/2000

Other

Specify *

Character count: 0/2000

Date Range

+/-

Please define the date range for the reporting period based on the "From" time period as the month and year that corresponds to the beginning period in which utilization took place and please report the "To" time period as the month and year that corresponds to the end period in which utilization took place. Do not report the year in which data were collected from the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to the utilization of services.

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Explain which populations are excluded and why *

Specify total measure-eligible population *

Definition of Numerator

30-Day Follow-Up:

An outpatient visit, intensive outpatient encounter, or partial hospitalization (Table FUH.D) with a mental health practitioner within 30 days after discharge. Include outpatient visits, intensive outpatient encounters or partial hospitalizations that occur on the date of discharge.

7-Day Follow-Up:

An outpatient visit, intensive outpatient encounter, or partial hospitalization (Table FUH.D) with a mental health practitioner within 7 days after discharge. Include outpatient visits, intensive outpatient encounters or partial hospitalizations that occur on the date of discharge.

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes
- No

Performance Measure

+/-

The percentage of discharges for Health Home enrollees age 6 and older who were hospitalized for treatment of selected mental health disorders and who had an outpatient visit, an intensive outpatient encounter, or partial hospitalization with a mental health practitioner. Two rates are reported:

- The percentage of discharges for which the patient received follow-up within 7 days of discharge.
- The percentage of discharges for which the patient received follow-up within 30 days of discharge.

Follow-Up within 30 days of discharge

Description

No file chosen

Would you like to validate the core measure data at this time?

Yes No

(Note: While the measure does not need to be validated at this time in order to proceed, each measure must be validated for the measure to be marked as 'complete' and before the report can be submitted to CMS).

Note: If validation fails, errors will appear in red above.

Follow-Up After Hospitalization for Mental Illness (FUH)

Health Homes Quality Measure - OR - 2013

Measurement Specification

+/-

- NCQA: National Committee for Quality Assurance
- Other

Explain *

Data Source

+/-

- Administrative Data Only

From where is the Administrative Data coming?

Must select one or more

- Medicaid Management Information System (MMIS)
- Other

*Specify

Character count: 0/2000

- Other

Specify *

Character count: 0/2000

Date Range

+/-

Please define the date range for the reporting period based on the "From" time period as the month and year that corresponds to the beginning period in which utilization took place and please report the "To" time period as the month and year that corresponds to the end period in which utilization took place. Do not report the year in which data were collected from the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to the utilization of services.

Start Date

January ▼
Month

2001 ▼
Year

End Date

2014 ▼
Year

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Explain which populations are excluded and why *

Specify total measure-eligible population *

Definition of Numerator

30-Day Follow-Up:

An outpatient visit, intensive outpatient encounter, or partial hospitalization (Table FUH.D) with a mental health practitioner within 30 days after discharge. Include outpatient visits, intensive outpatient encounters or partial hospitalizations that occur on the date of discharge.

7-Day Follow-Up:

An outpatient visit, intensive outpatient encounter, or partial hospitalization (Table FUH.D) with a mental health practitioner within 7 days after discharge. Include outpatient visits, intensive outpatient encounters or partial hospitalizations that occur on the date of discharge.

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes
- No

Other Performance Measure

- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

Rate 1: Initiation of AOD Treatment

Initiation of AOD treatment through an inpatient admission, outpatient visit, intensive outpatient encounter or partial hospitalization within 14 days of diagnosis.

If the Index Episode was an inpatient discharge, the inpatient stay is considered initiation of treatment and the adolescent or adult is compliant.

If the Index Episode was an outpatient, intensive outpatient, partial hospitalization, detoxification, or ED visit, the Health Home enrollee must have had an inpatient admission, outpatient visit, intensive outpatient encounter, or partial hospitalization (Table IET.B) with an AOD diagnosis (Table IET.A) within 14 days of the IESD (inclusive).

If the initiation encounter is an inpatient admission, the admission date (not the discharge date) must be within 14 days of the IESD (inclusive).

Do not count Index Episodes that include detoxification codes (including inpatient detoxification) as being initiation of treatment.

Exclude Health Home enrollees from the denominator whose initiation encounter is an inpatient stay with a discharge date after December 1 of the measurement year.

Rate 2: Engagement of AOD Treatment

Initiation of AOD treatment and two or more inpatient admissions, outpatient visits, intensive outpatient encounters, or partial hospitalizations (Table IET.B) with any AOD diagnosis (Table IET.A) within 30 days after the date of the initiation encounter (inclusive). Multiple engagement visits may occur on the same day, but they must be with different providers in order to be counted.

For Health Home enrollees who initiated treatment via an inpatient stay, use the discharge date as the start of the 30-day engagement period. If the engagement encounter is an inpatient admission, the admission date (not the discharge date) must be within 30 days of the Initiation encounter (inclusive). Do not count engagement encounters that include detoxification codes (including inpatient detoxification).

Performance Measure

[+/-](#)

The percentage of Health Home enrollees age 13 and older with a new episode of alcohol or other drug (AOD) dependence who received the following:

- Initiation of AOD Treatment. The percentage of Health Home enrollees who initiated treatment through an inpatient AOD admission, outpatient visit, intensive outpatient encounter, or partial hospitalization within 14 days of the diagnosis.
- Engagement of AOD Treatment. The percentage of Health Home enrollees who initiated treatment and who had two or more additional services with a diagnosis of AOD within 30 days of the initiation visit.

Rate 1: Initiation of AOD Treatment

Age Range: 13-17

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 18-64

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 65 and older

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

The option "Denominator includes Medicare and Medicaid Dually-Eligible population" was selected in the "Definition of Population included in the Measure" section; however, no data were reported for the population age 65 and older. Are data available for population age 65 and over? *

- Yes
- No

Please either:

1. enter a N/D/R for this age group,
2. return to the "Definition of Population Included in the Measure" section and de-select the option "Denominator includes Medicare and Medicaid Dually-Eligible population", or
3. explain below why data were not reported for age 65 and older (for example if the 65 and older group were combined with the 18-64 age group).

"Denominator includes Medicare and Medicaid Dually-Eligible population" was selected, but a numerator, denominator, and rate were not reported for the 65 and older population. Please explain why *

Age Range: Total

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Rate 2: Engagement of AOD Treatment

Age Range: 13-17

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 18-64

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 65 and older

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

The option "Denominator includes Medicare and Medicaid Dually-Eligible population" was selected in the "Definition of Population included in the Measure" section; however, no data were reported for the population age 65 and older. Are data available for population age 65 and over? *

- Yes

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

Rate 1: Initiation of AOD Treatment

Initiation of AOD treatment through an inpatient admission, outpatient visit, intensive outpatient encounter or partial hospitalization within 14 days of diagnosis.

If the Index Episode was an inpatient discharge, the inpatient stay is considered initiation of treatment and the adolescent or adult is compliant.

If the Index Episode was an outpatient, intensive outpatient, partial hospitalization, detoxification, or ED visit, the Health Home enrollee must have had an inpatient admission, outpatient visit, intensive outpatient encounter, or partial hospitalization (Table IET.B) with an AOD diagnosis (Table IET.A) within 14 days of the IESD (inclusive).

If the initiation encounter is an inpatient admission, the admission date (not the discharge date) must be within 14 days of the IESD (inclusive).

Do not count Index Episodes that include detoxification codes (including inpatient detoxification) as being initiation of treatment.

Exclude Health Home enrollees from the denominator whose initiation encounter is an inpatient stay with a discharge date after December 1 of the measurement year.

Rate 2: Engagement of AOD Treatment

Initiation of AOD treatment and two or more inpatient admissions, outpatient visits, intensive outpatient encounters, or partial hospitalizations (Table IET.B) with any AOD diagnosis (Table IET.A) within 30 days after the date of the initiation encounter (inclusive). Multiple engagement visits may occur on the same day, but they must be with different providers in order to be counted.

For Health Home enrollees who initiated treatment via an inpatient stay, use the discharge date as the start of the 30-day engagement period. If the engagement encounter is an inpatient admission, the admission date (not the discharge date) must be within 30 days of the Initiation encounter (inclusive). Do not count engagement encounters that include detoxification codes (including inpatient detoxification).

Performance Measure

[+/-](#)

The percentage of Health Home enrollees age 13 and older with a new episode of alcohol or other drug (AOD) dependence who received the following:

- Initiation of AOD Treatment. The percentage of Health Home enrollees who initiated treatment through an inpatient AOD admission, outpatient visit, intensive outpatient encounter, or partial hospitalization within 14 days of the diagnosis.
- Engagement of AOD Treatment. The percentage of Health Home enrollees who initiated treatment and who had two or more additional services with a diagnosis of AOD within 30 days of the initiation visit.

- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

Rate 1: Initiation of AOD Treatment

Initiation of AOD treatment through an inpatient admission, outpatient visit, intensive outpatient encounter or partial hospitalization within 14 days of diagnosis.

If the Index Episode was an inpatient discharge, the inpatient stay is considered initiation of treatment and the adolescent or adult is compliant.

If the Index Episode was an outpatient, intensive outpatient, partial hospitalization, detoxification, or ED visit, the Health Home enrollee must have had an inpatient admission, outpatient visit, intensive outpatient encounter, or partial hospitalization (Table IET.B) with an AOD diagnosis (Table IET.A) within 14 days of the IESD (inclusive).

If the initiation encounter is an inpatient admission, the admission date (not the discharge date) must be within 14 days of the IESD (inclusive).

Do not count Index Episodes that include detoxification codes (including inpatient detoxification) as being initiation of treatment.

Exclude Health Home enrollees from the denominator whose initiation encounter is an inpatient stay with a discharge date after December 1 of the measurement year.

Rate 2: Engagement of AOD Treatment

Initiation of AOD treatment and two or more inpatient admissions, outpatient visits, intensive outpatient encounters, or partial hospitalizations (Table IET.B) with any AOD diagnosis (Table IET.A) within 30 days after the date of the initiation encounter (inclusive). Multiple engagement visits may occur on the same day, but they must be with different providers in order to be counted.

For Health Home enrollees who initiated treatment via an inpatient stay, use the discharge date as the start of the 30-day engagement period. If the engagement encounter is an inpatient admission, the admission date (not the discharge date) must be within 30 days of the Initiation encounter (inclusive). Do not count engagement encounters that include detoxification codes (including inpatient detoxification).

Performance Measure

[+/-](#)

The percentage of Health Home enrollees age 13 and older with a new episode of alcohol or other drug (AOD) dependence who received the following:

- Initiation of AOD Treatment. The percentage of Health Home enrollees who initiated treatment through an inpatient AOD admission, outpatient visit, intensive outpatient encounter, or partial hospitalization within 14 days of the diagnosis.
- Engagement of AOD Treatment. The percentage of Health Home enrollees who initiated treatment and who had two or more additional services with a diagnosis of AOD within 30 days of the initiation visit.

Date Range

+/-

Please define the date range for the reporting period based on the "From" time period as the month and year that corresponds to the beginning period in which utilization took place and please report the "To" time period as the month and year that corresponds to the end period in which utilization took place. Do not report the year in which data were collected from the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to the utilization of services.

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Explain which populations are excluded and why *

Specify total measure-eligible population *

Definition of Numerator

Rate 1: Initiation of AOD Treatment

Initiation of AOD treatment through an inpatient admission, outpatient visit, intensive outpatient encounter or partial hospitalization within 14 days of diagnosis.

If the Index Episode was an inpatient discharge, the inpatient stay is considered initiation of treatment and the adolescent or adult is compliant.

If the Index Episode was an outpatient, intensive outpatient, partial hospitalization, detoxification, or ED visit, the Health Home enrollee must have had an inpatient admission, outpatient visit, intensive outpatient encounter, or partial hospitalization (Table IET.B) with an AOD diagnosis (Table IET.A) within 14 days of the IESD (inclusive).

If the initiation encounter is an inpatient admission, the admission date (not the discharge date) must be within 14 days of the IESD (inclusive).

Do not count Index Episodes that include detoxification codes (including inpatient detoxification) as being initiation of treatment.

Exclude Health Home enrollees from the denominator whose initiation encounter is an inpatient stay with a discharge date after December 1 of the measurement year.

Rate 2: Engagement of AOD Treatment

Initiation of AOD treatment and two or more inpatient admissions, outpatient visits, intensive outpatient encounters, or partial hospitalizations (Table IET.B) with any AOD diagnosis (Table IET.A) within 30 days after the date of the initiation encounter (inclusive). Multiple engagement visits may occur on the same day, but they must be with different providers in order to be counted.

For Health Home enrollees who initiated treatment via an inpatient stay, use the discharge date as the start of the 30-day engagement period. If the engagement encounter is an inpatient admission, the admission date (not the discharge date) must be within 30 days of the Initiation encounter (inclusive). Do not count engagement encounters that include detoxification codes (including inpatient detoxification).

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes
- No

Performance Measure

+/-

The percentage of Health Home enrollees age 13 and older with a new episode of alcohol or other drug (AOD) dependence who received the following:

- Initiation of AOD Treatment. The percentage of Health Home enrollees who initiated treatment through an inpatient AOD admission, outpatient visit, intensive outpatient encounter, or partial hospitalization within 14 days of the diagnosis.
- Engagement of AOD Treatment. The percentage of Health Home enrollees who initiated treatment and who had two or more additional services with a diagnosis of AOD within 30 days of the initiation visit.

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Explain which populations are excluded and why *

Specify total measure-eligible population *

Definition of Numerator

Rate 1: Initiation of AOD Treatment

Initiation of AOD treatment through an inpatient admission, outpatient visit, intensive outpatient encounter or partial hospitalization within 14 days of diagnosis.

If the Index Episode was an inpatient discharge, the inpatient stay is considered initiation of treatment and the adolescent or adult is compliant.

If the Index Episode was an outpatient, intensive outpatient, partial hospitalization, detoxification, or ED visit, the Health Home enrollee must have had an inpatient admission, outpatient visit, intensive outpatient encounter, or partial hospitalization (Table IET.B) with an AOD diagnosis (Table IET.A) within 14 days of the IESD (inclusive).

If the initiation encounter is an inpatient admission, the admission date (not the discharge date) must be within 14 days of the IESD (inclusive).

Do not count Index Episodes that include detoxification codes (including inpatient detoxification) as being initiation of treatment.

Exclude Health Home enrollees from the denominator whose initiation encounter is an inpatient stay with a discharge date after December 1 of the measurement year.

Rate 2: Engagement of AOD Treatment

Initiation of AOD treatment and two or more inpatient admissions, outpatient visits, intensive outpatient encounters, or partial hospitalizations (Table IET.B) with any AOD diagnosis (Table IET.A) within 30 days after the date of the initiation encounter (inclusive). Multiple engagement visits may occur on the same day, but they must be with different providers in order to be counted.

For Health Home enrollees who initiated treatment via an inpatient stay, use the discharge date as the start of the 30-day engagement period. If the engagement encounter is an inpatient admission, the admission date (not the discharge date) must be within 30 days of the Initiation encounter (inclusive). Do not count engagement encounters that include detoxification codes (including inpatient detoxification).

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes
- No

Would you like to validate the core measure data at this time?

Yes No

(Note: While the measure does not need to be validated at this time in order to proceed, each measure must be validated for the measure to be marked as 'complete' and before the report can be submitted to CMS).

Warning: Any field containing more than 4000 characters will be truncated when saved.

Inpatient Utilization (IU)

Health Homes Quality Measure - OR - 2013

Are you reporting on this measure? *

- No

Measurement Specification

+/-

- CMS: Centers for Medicare and Medicaid Services
- Other

Data Source

+/-

Administrative Data Only

From where is the Administrative Data coming?

Must select one or more

- Medicaid Management Information System (MMIS)
- Other

*Specify

Character count: 0/2000

Other

Specify *

Character count: 0/2000

Date Range

+/-

Please define the date range for the reporting period based on the "From" time period as the month and year that corresponds to the beginning period in which utilization took place and please report the "To" time period as the month and year that corresponds to the end period in which utilization took place. Do not report the year in which data were collected from the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to the utilization of services.

Start Date

Month Year

End Date

Month Year

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

All discharges from acute inpatient care and services, counted from the date of discharge, that occurred during the measurement year. The same procedure or service received on two different dates counts as two procedures. Multiple procedures on the same date of service count as one inpatient stay. Transfer between institutions are counted as separate admissions.

Discharges are categorized into the following:

- Maternity
- Mental Health
- Surgery
- Medicine

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes
- No

Please select and explain the deviation(s)

Would you like to validate the core measure data at this time?

Yes No

(Note: While the measure does not need to be validated at this time in order to proceed, each measure must be validated for the measure to be marked as 'complete' and before the report can be submitted to CMS).

Warning: Any field containing more than 4000 characters will be truncated when saved.

Inpatient Utilization (IU)

Health Homes Quality Measure - OR - 2013

Request Technical Assistance Clear View All Responses

Are you reporting on this measure? *

[View Implementation Guide](#)

- Yes
- No

Measurement Specification

+/-

- CMS: Centers for Medicare and Medicaid Services
- Other

Explain *

Data Source

+/-

- Administrative Data Only

From where is the Administrative Data coming?

Must select one or more

- Medicaid Management Information System (MMIS)
- Other

*Specify

Character count: 0/2000

- Other

Specify *

Character count: 0/2000

Date Range

+/-

Please define the date range for the reporting period based on the "From" time period as the month and year that corresponds to the beginning period in which utilization took place and please report the "To" time period as the month and year that corresponds to the end period in which utilization took place. Do not report the year in which data were collected from the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to the utilization of services.

Start Date

End Date

Month

Year

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

All discharges from acute inpatient care and services, counted from the date of discharge, that occurred during the measurement year. The same procedure or service received on two different dates counts as two procedures. Multiple procedures on the same date of service count as one inpatient stay. Transfer between institutions are counted as separate admissions.

Discharges are categorized into the following:

- Maternity
- Mental Health
- Surgery
- Medicine

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes
- No

Please select and explain the deviation(s)

Would you like to validate the core measure data at this time?

Yes No

(Note: While the measure does not need to be validated at this time in order to proceed, each measure must be validated for the measure to be marked as 'complete' and before the report can be submitted to CMS).

Warning: Any field containing more than 4000 characters will be truncated when saved.

Inpatient Utilization (IU)

Health Homes Quality Measure - OR - 2013

Request Technical Assistance

- No

Measurement Specification

+/-

- CMS: Centers for Medicare and Medicaid Services
- Other

Data Source

+/-

Administrative Data Only

From where is the Administrative Data coming?

Must select one or more

- Medicaid Management Information System (MMIS)
- Other

*Specify

Character count: 0/2000

Other

Specify *

Character count: 0/2000

Date Range

+/-

Please define the date range for the reporting period based on the "From" time period as the month and year that corresponds to the beginning period in which utilization took place and please report the "To" time period as the month and year that corresponds to the end period in which utilization took place. Do not report the year in which data were collected from the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to the utilization of services.

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Explain which populations are excluded and why *

Specify total measure-eligible population *

Definition of Numerator

All discharges from acute inpatient care and services, counted from the date of discharge, that occurred during the measurement year. The same procedure or service received on two different dates counts as two procedures. Multiple procedures on the same date of service count as one inpatient stay. Transfer between institutions are counted as separate admissions.

Discharges are categorized into the following:

- Maternity
- Mental Health
- Surgery
- Medicine

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes
- No

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

The number of admissions to nursing facilities between September 1 of the year prior to the measurement year and August 31 of the measurement year.

The numerator of this measure is based on number of admissions. An enrollee may be counted more than once in numerator if the individual had more than one admission to a nursing facility followed by a discharge to the community during the measurement year.

Admissions that are transfers from a nursing facility or ICF/IDD, or admissions from a hospital where the hospital admission originated from a nursing facility or ICF/IDD are not included.

Deviations from Measure Specifications

Performance Measure

+/-

The number of admissions to a nursing facility from the community that result in a short-term (less than 101 days) or long-term stay (greater than or equal to 101 days) during the measurement year per 1,000 enrollee months. The following rates are reported:

- Nursing facility stay <101 days (short-term stay)
- Nursing facility stay ≥101 days (long-term stay)

Age Range: 18-64

Number of Short Term Admissions	Number of Long Term Admissions	Number of Enrollees Months	Short Term Admissions/1000 Enrollees Months	Long Term Admissions/1000 Enrollees Months

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Explain which populations are excluded and why *

Specify total measure-eligible population *

Definition of Numerator

The number of admissions to nursing facilities between September 1 of the year prior to the measurement year and August 31 of the measurement year.

The numerator of this measure is based on number of admissions. An enrollee may be counted more than once in numerator if the individual had more than one admission to a nursing facility followed by a discharge to the community during the measurement year.

Admissions that are transfers from a nursing facility or ICF/IDD, or admissions from a hospital where the hospital admission originated from a nursing facility or ICF/IDD are not included.

Deviations from Measure Specifications

Performance Measure

+/-

The number of admissions to a nursing facility from the community that result in a short-term (less than 101 days) or long-term stay (greater than or equal to 101 days) during the measurement year per 1,000 enrollee months. The following rates are reported:

- Nursing facility stay <101 days (short-term stay)
- Nursing facility stay ≥101 days (long-term stay)

Age Range: 18-64

Number of Short Term Admissions	Number of Long Term Admissions	Number of Enrollees Months	Short Term Admissions/1000 Enrollees Months	Long Term Admissions/1000 Enrollees Months
			0	0

Performance Measure

+/-

For Medicaid beneficiaries 18 years and older, the number of acute inpatient stays during the measurement year that were followed by an acute readmission for any diagnosis within 30 days and the predicted probability of an acute readmission. Data are reported in the following categories:

- Count of Index Hospital Stays (IHS)(denominator)
- Count of 30-Day Readmissions (numerator)
- Observed Readmission (rate)

Age Range: 18-64

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 65 and older

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

The option "Denominator includes Medicare and Medicaid Dually-Eligible population" was selected in the "Definition of Population included in the Measure" section; however, no data were reported for the population age 65 and older. Are data available for population age 65 and over? *

- Yes
- No

Please either:

1. enter a N/D/R for this age group,
2. return to the "Definition of Population Included in the Measure" section and de-select the option "Denominator includes Medicare and Medicaid Dually-Eligible population", or
3. explain below why data were not reported for age 65 and older (for example if the 65 and older group were combined with the 18-64 age

group).

"Denominator includes Medicare and Medicaid Dually-Eligible population" was selected, but a numerator, denominator, and rate were not reported for the 65 and older population. Please explain why *

Age Range: Total

Please explain why data was not entered for this numerator/denominator/rate set *

Performance Measure

+/-

For Medicaid beneficiaries 18 years and older, the number of acute inpatient stays during the measurement year that were followed by an acute readmission for any diagnosis within 30 days and the predicted probability of an acute readmission. Data are reported in the following categories:

- Count of Index Hospital Stays (IHS)(denominator)
- Count of 30-Day Readmissions (numerator)
- Observed Readmission (rate)

Age Range: 18-64

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 65 and older

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

The option "Denominator includes Medicare and Medicaid Dually-Eligible population" was selected in the "Definition of Population included in the Measure" section; however, no data were reported for the population age 65 and older. Are data available for population age 65 and over? *

- Yes
- No

If applicable, please return to the "Definition of Population Included in the Measure" section and de-select the option "Denominator includes Medicare and Medicaid Dually-Eligible population" or provide explanation below.

"Denominator includes Medicare and Medicaid Dually-Eligible population" was not de-selected, please explain why *

Age Range: Total

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Measurement Specification

+/-

- NCQA: National Committee for Quality Assurance
- Other

Explain *

Data Source

+/-

- Administrative Data Only

From where is the Administrative Data coming?

Must select one or more

- Medicaid Management Information System (MMIS)
- Other

*Specify

Character count: 0/2000

- Other

Specify *

Character count: 0/2000

Date Range

+/-

Please define the date range for the reporting period based on the "From" time period as the month and year that corresponds to the beginning period in which utilization took place and please report the "To" time period as the month and year that corresponds to the end period in which utilization took place. Do not report the year in which data were collected from the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to the utilization of services.

Start Date

August ▼
Month

2009 ▼
Year

End Date

September ▼
Month

2013 ▼
Year

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Explain which populations are excluded and why *

Specify total measure-eligible population *

Definition of Numerator

At least one acute readmission for any diagnosis within 30 days of the Index Discharge Date.

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes
- No

Other Performance Measure

+/-

Please describe the other methodology used *

Please describe the rate (e.g., 18-64)	Numerator	Denominator	Rate

Would you like to validate the core measure data at this time?

Yes No

(Note: While the measure does not need to be validated at this time in order to proceed, each measure must be validated for the measure to be marked as 'complete' and before the report can be submitted to CMS).

Note: If validation fails, errors will appear in red above.

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

Discharges for patients ages 18 and older, who meet the inclusion and exclusion rules for the numerator in any of the following Prevention Quality Indicators (PQIs):

- PQI 1: Diabetes Short-Term Complications Admission
- PQI 3: Diabetes Long-Term Complications Admission
- PQI 5: COPD or Asthma in Older Adults Admission
- PQI 7: Hypertension Admission
- PQI 8: Heart Failure Admission
- PQI 13: Angina without Procedure Admission
- PQI 14: Uncontrolled Diabetes Admission
- PQI 15: Asthma in Younger Adults Admission
- PQI 16: Lower-Extremity Amputations Among Patients with Diabetes

Discharges that meet the inclusion and exclusion rules for the numerator in more than one of the above PQIs are counted only once in the composite numerator.

Deviations from Measure Specifications

Performance Measure

+/-

The total number of hospital admissions for ambulatory care sensitive chronic conditions per 100,000 Health Home enrollees age 18 and older. This measure includes adult hospital admissions for diabetes with short-term complications; diabetes with long-term complications; uncontrolled diabetes without complications; diabetes with lower-extremity amputation; chronic obstructive pulmonary disease; asthma; hypertension; heart failure; or angina without a cardiac procedure.

Age Range: 18-64

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Age Range: 65 and older

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

The option "Denominator includes Medicare and Medicaid Dually-Eligible population" was selected in the "Definition of Population included in the Measure" section; however, no data were reported for the population age 65 and older. Are data available for population age 65 and over? *

- Yes
- No

Please either:

1. enter a N/D/R for this age group,
2. return to the "Definition of Population Included in the Measure" section and de-select the option "Denominator includes Medicare and Medicaid Dually-Eligible population", or
3. explain below why data were not reported for age 65 and older (for example if the 65 and older group were combined with the 18-64 age group).

"Denominator includes Medicare and Medicaid Dually-Eligible population" was selected, but a numerator, denominator, and rate were not reported for the 65 and older population. Please explain why *

Age Range: Total

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/2000

Additional Notes/Comments on Measure

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

Discharges for patients ages 18 and older, who meet the inclusion and exclusion rules for the numerator in any of the following Prevention Quality Indicators (PQIs):

- PQI 1: Diabetes Short-Term Complications Admission
- PQI 3: Diabetes Long-Term Complications Admission
- PQI 5: COPD or Asthma in Older Adults Admission
- PQI 7: Hypertension Admission
- PQI 8: Heart Failure Admission
- PQI 13: Angina without Procedure Admission
- PQI 14: Uncontrolled Diabetes Admission
- PQI 15: Asthma in Younger Adults Admission
- PQI 16: Lower-Extremity Amputations Among Patients with Diabetes

Discharges that meet the inclusion and exclusion rules for the numerator in more than one of the above PQIs are counted only once in the composite numerator.

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Definition of Numerator

Discharges for patients ages 18 and older, who meet the inclusion and exclusion rules for the numerator in any of the following Prevention Quality Indicators (PQIs):

- PQI 1: Diabetes Short-Term Complications Admission
- PQI 3: Diabetes Long-Term Complications Admission
- PQI 5: COPD or Asthma in Older Adults Admission
- PQI 7: Hypertension Admission
- PQI 8: Heart Failure Admission
- PQI 13: Angina without Procedure Admission
- PQI 14: Uncontrolled Diabetes Admission
- PQI 15: Asthma in Younger Adults Admission
- PQI 16: Lower-Extremity Amputations Among Patients with Diabetes

Discharges that meet the inclusion and exclusion rules for the numerator in more than one of the above PQIs are counted only once in the composite numerator.

Are you reporting on this measure? *

[View Implementation Guide](#)

- Yes
- No

Measurement Specification

+/-

- AHRQ: Agency for Healthcare Research and Quality
- Other

Explain *

Data Source

+/-

Administrative Data Only

From where is the Administrative Data coming?

Must select one or more

- Medicaid Management Information System (MMIS)
- Other

*Specify

Character count: 0/2000

Other

Specify *

Character count: 0/2000

Date Range

+/-

Please define the date range for the reporting period based on the "From" time period as the month and year that corresponds to the beginning period in which utilization took place and please report the "To" time period as the month and year that corresponds to the end period in which utilization took place. Do not report the year in which data were collected from the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to the utilization of services.

Start Date

April ▼

2013 ▼

Year

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply

- Denominator includes Medicaid population
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Explain which populations are excluded and why *

Specify total measure-eligible population *

Definition of Numerator

Discharges for patients ages 18 and older, who meet the inclusion and exclusion rules for the numerator in any of the following Prevention Quality Indicators (PQIs):

- PQI 1: Diabetes Short-Term Complications Admission
- PQI 3: Diabetes Long-Term Complications Admission
- PQI 5: COPD or Asthma in Older Adults Admission
- PQI 7: Hypertension Admission
- PQI 8: Heart Failure Admission
- PQI 13: Angina without Procedure Admission
- PQI 14: Uncontrolled Diabetes Admission
- PQI 15: Asthma in Younger Adults Admission
- PQI 16: Lower-Extremity Amputations Among Patients with Diabetes

Discharges that meet the inclusion and exclusion rules for the numerator in more than one of the above PQIs are counted only once in the composite numerator.

Deviations from Measure Specifications

+/-

Did your calculation of the measure deviate from the measure specification in any way? *

- Yes
- No

Other Performance Measure

+/-

Please describe the other methodology used *
