Source: Centers for Medicare & Medicaid Services, Medicaid/CHIP Core Set Technical Assistance and Analytic Support Program, August 2017.

Note: States are expected to report measures in MACPro for each State Plan Amendment (SPA); thus, states could be submitting more than one Health Home Core Set report. Reporting for each amendment (indicated by Amendment # in the table above) should be included with the original SPA and not as a separate report.

States are expected to report the Health Home Core Set measures when their state plan amendment (SPA) has been in effect for six months or more of the measurement period. For SPA amendments, states are expected to include data affected by the amendment combined with data from the original SPA when the amendment is in effect for six or more months of the measurement period. For more information, contact the TA mailbox at [MACQualityTA@cms.hhs.gov](mailto:MACQualityTA@cms.hhs.gov).

\*The measurement period is January 1, 2013 to December 31, 2013 for the FFY 2014 reporting cycle; January 1, 2014 to December 31, 2014 for the FFY 2015 reporting cycle; January 1, 2015 to December 31, 2015 for the FFY 2016 reporting cycle; January 1, 2016 to December 31, 2016 for the FFY 2017 reporting cycle; and January 1, 2017 to December 31, 2017 for the FFY 2018 reporting cycle.

\*\*State has withdrawn its Medicaid health home SPA.
